7. WAYS OF PRACTICE

Internship, including undergraduate practice, is carried out on the basis of RUDN University or in other organizations, state authorities, local governments, in bodies and organizations located on the territory of Moscow (stationary practice), as well as in bodies and organizations located in other subjects Russian Federation, as a rule, at the place of residence of students.

The choice of an organization for the internship for each undergraduate is determined by individual tasks, which are included in an individual internship plan developed jointly with the head of the master's program and the head of the internship.

Undergraduates have the right to determine the place of industrial practice on their own (1 and 2 modules) and undergo practice on an individual basis. The procedure for organizing an

internship on an individual basis is regulated by the Regulations for conducting individual field practices, approved by order of the Rector of RUDN University. For internship on an individual basis, a master student must, before starting the practice, write an application addressed to the director of the legal institute with a request to allow internship on the basis of the enterprise / organization of his choice, indicating the reason for choosing the base by the trainee. The application written by the undergraduate is endorsed by the head of practice at the department, which means that the head of practice confirms the compliance of the practice base with the practice program and the ability of the practice base to form universal, general professional and professional competencies, the development of which is the goal of work practice.

A graduate student may be denied an internship on an individual basis if:

- the base of practice does not correspond to the direction of training;
- the practice base does not correspond to the practice program, does not sufficiently contribute to the formation of universal, general professional and professional competencies.

After obtaining the consent of the head of the practice for the internship on an individual basis, the undergraduate concludes an agreement for the internship between the RUDN University and the enterprise / organization-base of the practice. The statement endorsed by the head of the practice from the department and the contract for the internship are transferred to the directorate of the legal institute.

When choosing bases of practice, it is necessary to be guided by the following criteria:

Presence in the organization:

- highly qualified specialists;
- modern material and technical base;
- opportunities for direct participation (as trainees) in the consideration of cases in the judiciary;
- opportunities to ensure the acquisition of practical skills within the framework of individual assignments, incl. drafting various legal documents;
- modern software.

The last 2 weeks of Internship, all undergraduates pass based on RUDN University (profile department) in order to systematize the collected material, present an intermediate version of the master's thesis to the head of practice, correct comments, finalize the master's thesis, and complete the writing of the master's thesis.

Industrial practice is carried out in the second year of study in the seventh module in the amount established by the curriculum.
