LAW INSTITUTE

educational division (faculty/institute/academy) as higher education programme developer

COURSE SYLLABUS

PEDAGOGICS AND PSYCHOLOGY OF HIGHER EDUCATION

course title

Recommended by the Didactic Council for the Education Field of:

45.04.02 Linguistics

field of studies / speciality code and title

The course instruction is implemented within the professional education programme of higher education:

Legal Translation and Interpreting

higher education programme profile/specialisation title

1. COURSE GOAL(s)

The goal of the course is to provide an introduction to the Pedagogics and Psychology of Higher Education.

The course content familiarizes students with the basic theoretical knowledge, international and national panorama of the discipline. Special emphasis is laid on interdisciplinary environment that embraces cognitive, cultural, pragmatic, linguistics aspects of pedagogical and psychological research and practice within a broad socio cultural context related to a particular pedagogical and psychological systems and cultures.

The course covers the nature, principles and procedures, classification and levels of contemporary higher education, guides students to realize the implications of the similarities and differences between national educational systems typical of a particular time period.

2. REQUIREMENTS FOR LEARNING OUTCOMES

1) Mastering the course “Pedagogics and Psychology of Higher Education” is aimed at the development of the following competences:

Table 2.1. List of competences that students acquire through the course study

Competence code	Competence descriptor	Competence formation indicators (within this course)
GC-5	Ability to analyze and consider cultural diversity during cross cultural interaction.	GC 5.1. Knows culture, history and geography of the countries whose languages are learnt as well as data perception stereotypes and ways to overcome them in the course of cross cultural interaction.
		GC-5.2. Masters comprehensive linguistic and extralinguistic tools to create a discrimination-free environment for cross cultural interaction.
GPC-2	Knowledge of the specifics of foreign scientific worldview and masters the academic discourse in Russian and foreign language being learnt.	GPC-2.1. Knows the specifics of the scientific picture of the world and the components of its discursive modelling in Russian and the foreign languages being learnt.
		GPC-2.2. Masters comprehensive tools to produce academic discourse in Russian and foreign languages.
GPC-3	Readiness to master the general theory of teaching and methodology of teaching specialized disciplines within the chosen field of the educational program (translation and interpreting), can use modern educational technologies in practice.	GPC-3.1. Knows the background concepts, theories, approaches within the contemporary teaching theory and methods to teach specialized disciplines within the chosen field of the training of specialists in translation and interpreting. GPC-3.2. Masters comprehensive tools to train specialists in translation and interpreting.

3. COURSE IN HIGHER EDUCATION PROGRAMME STRUCTURE

The course refers to the core/variable/elective* component of (B1) block of the higher educational programme curriculum.

* - Underline whatever applicable.

Within the higher education programme students also master other (modules) and / or internships that contribute to the achievement of the expected learning outcomes as results of the course study.

Table 3.1. The list of the higher education programme components/disciplines that contribute to the achievement of the expected learning outcomes as the course study results

Competence code	Competence descriptor	Previous courses/modules*	Subsequent courses/modules*
GC-5	Ability to analyze and consider cultural diversity during cross cultural interaction.		“Methodology of Foreign Language Teaching”, “Didactics of Specialized Translation skills Training” and Academic Teaching Internship
GPC-2	Knowledge of the specifics of foreign scientific worldview and masters the academic discourse in Russian and foreign language being learnt.		“Methodology of Foreign Language Teaching”, “Didactics of Specialized Translation skills Training” and Academic Teaching Internship
GPC-3	Readiness to master the general theory of teaching and methodology of teaching specialized disciplines within the chosen field of the educational program (translation and interpreting), can use modern educational technologies in practice.		“Methodology of Foreign Language Teaching”, “Didactics of Specialized Translation skills Training” and Academic Teaching Internship

* To be filled in according to the competence matrix of the higher education programme.

4. COURSE WORKLOAD AND ACADEMIC ACTIVITIES

The total workload of the course is 3 credits (108 academic hours).

*Table 4.1. Types of academic activities during the periods of higher education programme mastering (**full-time training**)**

Type of academic activities	Total academic hours	Semesters/training modules			
		1	2	3	4

5. COURSE CONTENTS

Table 5.1. Course contents and academic activities types

Course module title	Course module contents (topics)	Academic activity types
Module 1: Pedagogics as a scientific study.	Topic 1.1. Pedagogics as a system, a scientific study, its notions, principles. General information on the theory and research methods.	LC
	Topic 1.2. History of Pedagogics. A historic view on varied strategies in pedagogics in Russia and some other countries (XVIII-XIX cent.) Outstanding scholars in pedagogics and psychology (XX cent.).	LC, S
Module 2: Psychology as a scientific study.	Topic 2.1. Psychology as a system, a scientific study, its notions, principles. General information on the theory and research methods.	LC, S
	Topic 2.2. Pedagogical and psychological interconnection. Pedagogics as development, instructing, training, education and learning. Models and principles of teaching.	S
Module 3: National higher education in the world educational environment.	Topic 3.1. Integration of national higher education in the world educational environment. Bologna process. Topic 3.2. Crisis in world education.	LC, S
Module 4: Contemporary higher education development.	Topic 4.1. General directions of contemporary higher education development (rules and regulations of contemporary education, its subject matter, curriculum, the application of up-to-date technologies and modes of training and teaching, the level of the competences obtained). Topic 4.2. Contemporary approaches to personality development in learning and professional environment (a pedagogical and psychological study of a student personality, realization of professional self-study and personal evolution, designing of further educational environment and professional promotion, studying such individual characteristics of students as age, personality, cognitive abilities.	LC, S
Module 5: Contemporary pedagogical and psychological challenges in higher education.	Topic 5.1. Contemporary pedagogical and psychological challenges in higher education (social, national, cultural and religious stratification among students, inclusive education i.e. integration of students with severe disabilities in learning activities). Topic 5.2. Differential psych diagnosis in education. Creating safe and psychological comfortable circumstances for learning. Psychological support of learning and teaching.	LC, S

Course module title	Course module contents (topics)	Academic activity types
Module 6: Psychology of mutual cognitive activity.	Topic 6.1. Psychology of mutual cognitive activity. Activity theory in psychology of learning. Kinds of learning activity. Leontev A.N. and his activity theory. The notion of the leading activity. Topic 6.2. Task-based learning. Psychological and pedagogical conditions of task-based learning.	LC, S
Module 7: Motivation concepts	Topic 7.1. Motivation concepts. Motivation as a stimulus for learning at higher school. Intrinsic motivation and extrinsic motivation. Topic 7.2. Social Psychology (psychology of trust). Psychological trainings in learning and teaching.	LC, S
Module 8: Assessment at higher school.	Topic 8.1. Ways of assessment at higher school. ECTS grades description. Project making method. Topic 8.2. Cooperative learning. Professional communication in learning and teaching. Students-teachers relationship at higher school and professional and personal development.	LC, S
Module 9: Andragogy.	Topic 9.1. Difference between Pedagogy and Andragogy. Psychological and pedagogical grounds of teaching adults. Topic 9.2. Contemporary theories of adult education.	LC, S

* - to be filled in only for **full**-time training: LC - lectures; LW - lab work; S - seminars.

6. CLASSROOM EQUIPMENT AND TECHNOLOGY SUPPORT REQUIREMENTS

Table 6.1. Classroom equipment and technology support requirements

Type of academic activities	Classroom equipment	Specialised educational / laboratory equipment, software, and materials for course study (if necessary)
Lecture	A lecture hall for lecture-type classes, equipped with a set of specialised furniture; board (screen) and technical means of multimedia presentations.	
Seminar	A classroom for conducting seminars, group and individual consultations, current and mid-term assessment; equipped with a set of specialised furniture and technical means for	

Type of academic activities	Classroom equipment	Specialised educational / laboratory equipment, software, and materials for course study (if necessary)
	multimedia presentations.	
Self-studies	A classroom for independent work of students (can be used for seminars and consultations), equipped with a set of specialised furniture and computers with access to the electronic information and educational environment.	

* The premises for students' self-studies are subject to **MANDATORY** mention
