higher education programme profile/specialisation title

2023-2024

## 1. INTERNSHIP GOAL(s)

The goal of the Internship is to "General Practitioner: Outpatient Physician's Assistant" is to consolidate and deepen the theoretical training of the student, the acquisition of practical skills, possessions and skills, the formation of competencies that make up the content of the professional activity of the assistant therapist.

## 2. REQUIREMENTS FOR LEARNING OUTCOMES

The internship "Practice of general medical profile: assistant to a doctor of an outpatient polyclinic institution" implementation is aimed at the development of the following competences (competences in part): **GPC-2, GPC-2, PC-1, PC-2, PC-3, PC-4, PC-5, PC-6.**

*Table 2.1. List of competences that students acquire during the internship*

Competence code	Competence descriptor	Competence formation indicators (within this course)
GPC-2	Is able to carry out and monitor the effectiveness of preventive measures, the formation of a healthy lifestyle and sanitary and hygienic education of the population	GPC-2.1 Be able to analyze the awareness of the population about a healthy lifestyle and medical literacy.
		GPC-2.2 Be able to develop a plan of organizational and methodological measures aimed at raising awareness of the population about a healthy lifestyle, its literacy in the prevention of diseases.
		GPC-2.3 Be able to prepare an oral presentation or a printed text that promotes a healthy lifestyle and increases the literacy of the population in the prevention of diseases.
GPC-7	Is able to prescribe treatment and monitor its effectiveness and safety	GPC-7.1 Master the methods of general clinical examination, interpretation of the results of laboratory, instrumental diagnostic methods.
		GPC-7.2 Possess an algorithm for making a preliminary diagnosis with subsequent referral of the patient to the appropriate specialist doctor.
PC-1	Capable of providing medical care to the patient in urgent or emergency forms	PC-1.1. Is able to assess the condition of a patient requiring medical care in emergency or emergency forms.
		PC-1.2. Is able to recognize conditions arising from sudden acute diseases, exacerbation of chronic diseases without obvious signs of a threat to the patient's life and requiring urgent medical care.

		<p>PC-1.3. Is able to provide emergency medical care to patients with sudden acute diseases, conditions, exacerbation of chronic diseases without obvious signs of a threat to the patient's life.</p>
		<p>PC-1.4. Is able to recognize conditions that pose a threat to the patient's life, including conditions of clinical death (stopping vital functions of the human body (blood circulation and/or respiration) that require emergency medical care.</p>
		<p>PC-1.5. Is able to provide emergency medical care to patients with conditions that pose a threat to the patient's life, including clinical death (stopping vital functions of the human body (blood circulation and/or respiration).</p>
		<p>PC-1.6. Is able to use medicines and medical devices when providing medical care in emergency or emergency forms.</p>
PC-2	Capable of conducting a patient examination in order to establish a diagnosis	<p>PC-2.1. Has the skills of collecting complaints, anamnesis of the patient's life and illness, as well as conducting a complete physical examination of the patient (examination, palpation, percussion, auscultation).</p>
		<p>PC-2.2. Is able to formulate a preliminary diagnosis and make a plan for laboratory and instrumental examinations of the patient.</p>
		<p>PC-2.3. Is able to refer the patient for laboratory examination in the presence of medical indications in accordance with the current procedures for the provision of medical care, clinical recommendations (treatment protocols) on the provision of medical care, taking into account the standards of medical care.</p>
		<p>PC-2.4. Is able to refer the patient to an instrumental examination in the presence of medical indications in accordance with the current procedures for providing medical care, clinical recommendations (treatment protocols) on the provision of medical care, taking into account the standards of medical care.</p>
		<p>PC-2.5. Is able to refer the patient to a consultation with specialist doctors if there are medical indications in accordance with the current procedures for providing medical care, clinical recommendations (treatment protocols) on the provision of medical care, taking into account the standards of medical care.</p>

		<p>PC-2.6. Is able to refer a patient for specialized medical care in inpatient conditions or in a day hospital if there are medical indications in accordance with the current procedures for providing medical care, clinical recommendations (treatment protocols) on the provision of medical care, taking into account the standards of medical care.</p> <p>PC-2.7. Is able to carry out differential diagnostics with other diseases/ conditions, including urgent ones, as well as to establish a diagnosis taking into account the current international statistical classification of diseases and health-related problems (ICD).</p>
PC-3	Capable of prescribing treatment and monitoring its effectiveness and safety	<p>PC-3.1. Is able to develop a plan for the treatment of a disease or condition, taking into account the diagnosis, age and clinical picture in accordance with the current procedures for the provision of medical care, clinical recommendations (treatment protocols) on the provision of medical care, taking into account the standards of medical care.</p> <p>PC-3.2. Is able to prescribe medications, medical devices and medical nutrition, taking into account the diagnosis, age and clinical picture of the disease and in accordance with the current procedures for providing medical care, clinical recommendations (treatment protocols) on the provision of medical care, taking into account the standards of medical care.</p>
		<p>PC-3.3. Is able to prescribe non-drug treatment taking into account the diagnosis, age and clinical picture of the disease in accordance with the current procedures for providing medical care.</p> <p>PC-3.4. Is able to evaluate the effectiveness and safety of the use of medicines, medical devices, therapeutic nutrition and other methods of treatment.</p>
C-4	Capable of implementing and monitoring the effectiveness of the patient's medical rehabilitation, including the implementation of individual rehabilitation programs or habilitation of disabled people, assessment of the patient's ability to carry out work	<p>PC-4.1. Is able to conduct an examination of temporary disability and work as part of a medical commission that carries out the examination of temporary disability.</p> <p>PC-4.2. Is able to prepare the necessary medical documentation for the implementation of medical and social expertise in federal state institutions of medical and social expertise.</p> <p>PC-4.3. Is able to carry out measures of medical rehabilitation of the patient, including when implementing an individual rehabilitation program or habilitation of disabled people, in accordance with the current procedures for providing medical care, clinical recommendations (treatment protocols) on the provision of medical care, taking into account the standards of medical care.</p>

		<p>PC-4.4. Is able to refer a patient in need of medical rehabilitation to a specialist doctor for prescribing and carrying out medical rehabilitation measures, including when implementing an individual rehabilitation program or habilitation of disabled people, in accordance with current medical care procedures, clinical recommendations (treatment protocols) on medical care, taking into account standards medical care.</p>
		<p>PC-4.5. Is able to refer a patient in need of medical rehabilitation to a specialist doctor for the appointment and conduct of sanatorium treatment, including when implementing an individual rehabilitation program or habilitation of disabled people, in accordance with current medical care procedures, clinical recommendations (treatment protocols) on the provision of medical care with taking into account the standards of medical care.</p>
		<p>PC-4.6. Is able to assess the effectiveness and safety of the patient's medical rehabilitation measures in accordance with the current medical care procedures, clinical recommendations (treatment protocols) on the provision of medical care, taking into account the standards of medical re.</p>
		<p>PC-4.7. Is able to refer a patient with a persistent impairment of body functions caused by diseases, the consequences of injuries or defects to a medical and social examination.</p>
<p>PC-5</p>	<p>Capable of conducting and monitoring the effectiveness of measures for the prevention and formation of a healthy lifestyle and sanitary and hygienic education of the population</p>	<p>PC-5.1. Is able to organize and conduct medical examinations taking into account age, health status, profession in accordance with applicable regulatory legal acts and other documents.</p>
		<p>PC-5.2. Is able to organize and monitor the immunoprophylaxis of infectious diseases in the adult population in accordance with the current procedures for providing medical care, clinical recommendations (treatment protocols) on the provision of medical care, taking into account the standards of medical care.</p>
		<p>PC-5.3. Is able to carry out medical examination of the adult population for the purpose of early detection of chronic non-communicable diseases and the main risk factors for their development in accordance with current regulatory legal acts and other documents.</p>
		<p>PC-5.4. Is able to conduct dispensary monitoring of patients with identified chronic non-communicable diseases.</p>
		<p>PC-5.5. Is able to prescribe preventive measures to patients taking into account risk factors in accordance with the current procedures for providing medical care, clinical recommendations (treatment protocols) on the provision of</p>

		medical care, taking into account the standards of medical care.
		PC-5.6. Able to monitor compliance with preventive measures.
		PC-5.7. Is able to determine medical indications for the introduction of restrictive measures (quarantine) and indications for referral to a specialist in the event of infectious (parasitic) diseases.
		PC-5.8. Is able to issue and send to the territorial body of the Federal Service for Supervision in the Field of Consumer Rights Protection and Human Well-being an emergency notification when an infectious or occupational disease is detected.
		PC-5.9. Is able to carry out anti-epidemic measures in the event of a focus of infection, including quarantine measures in the detection of particularly dangerous (quarantine) infectious diseases.
		PC-5.10. Is able to form healthy lifestyle programs, including programs to reduce alcohol and tobacco consumption, prevent and combat non-medical use of narcotic drugs and psychotropic substances.
		PC-5.11. Is able to evaluate the effectiveness of preventive work with patients.
PC-6	Capable of maintaining medical records and organizing the activities of the nursing staff at the disposal	PC-6.1. Is able to draw up a work plan and a report on his work, issue a passport of a medical (therapeutic) site.
		PC-6.2. Is able to analyze the indicators of morbidity, disability and mortality to characterize the health of the attached population.
		PC-6.3. Is able to maintain medical records, including in electronic form.
		PC-6.4. Is able to monitor the performance of official duties by a district nurse and other medical workers at their disposal.
		PC-6.5. Is able to provide internal quality control and safety of medical activities within the scope of job responsibilities.

### 3. INTERNSHIP IN HIGHER EDUCATION PROGRAMME STRUCTURE

The internship refers to the core/variable/elective\* component of (B2) block of the higher educational programme curriculum.

\* Underline whatever applicable. The core component includes all introductory field internships, the variable component includes all advanced field internships, except for research and pre-graduate types of the internship. The elective module includes all research and pre-graduation types of the internship (if any).

Within the higher education programme students also master other disciplines (modules) and / or internships that contribute to the achievement of the expected learning outcomes as results of the internship.

*Table 3.1. The list of the higher education programme components that contribute to the achievement of the expected learning outcomes as the internship results.*

<b>Competence code</b>	<b>Competence descriptor</b>	<b>Previous courses/modules, internships*</b>	<b>Subsequent courses/modules, internships*</b>
CPC-2	Is able to carry out and monitor the effectiveness of preventive measures, the formation of a healthylifestyle and sanitary and hygienic education of the population	Propaedeutics of internal diseases; Faculty therapy; Faculty Surgery; Pediatrics; Hygiene; Medical Rehabilitation; Obstetrics and Gynecology	Hospital therapy; Endocrinology; Hospital surgery, pediatric surgery; Phthisiology
CPC-7	Able to prescribe treatment and monitor its effectiveness and safety	Faculty therapy; General surgery; Faculty Surgery; Neurology, Medical Genetics, Neurosurgery; Otorhinolaryngology; Dermatovenerology	Hospital therapy; Endocrinology; Hospital surgery, pediatric surgery; Phthisiology
PC-1	Capable of providing medical care to the patient in urgent or emergency forms	Propaedeutics of internal diseases; Faculty therapy; General surgery; Faculty Surgery	Hospital therapy; Endocrinology; Hospital surgery, pediatric surgery; Phthisiology
PC-2	Capable of conducting a patient examination in order to establish a diagnosis	Propaedeutics of internal diseases; Faculty therapy; General surgery; Faculty surgery; Occupational diseases; Dentistry; Dermatovenerology	Hospital therapy; Endocrinology; Hospital surgery, pediatric surgery; Oncology; Phthisiology
PC-3	Capable of prescribing treatment and monitoring its effectiveness and safety	Faculty therapy; General surgery; Faculty Surgery; Neurology, Medical Genetics, Neurosurgery	Hospital therapy; Endocrinology; Hospital surgery, pediatric surgery; Phthisiology
PC-4	Capable of implementing and monitoring the effectiveness of the patient's medical rehabilitation, including the implementation of individual rehabilitation programs or habilitation of disabled people, assessment of the patient's ability to carry out work	Faculty therapy; General surgery; Faculty Surgery; Neurology, Medical Genetics, Neurosurgery; Medical rehabilitation	Hospital therapy; Endocrinology; Hospital surgery, Pediatric surgery; Forensic Medicine; Oncology; Phthisiology

PC-5	Capable of conducting and monitoring the effectiveness of measures for the prevention and formation of a healthy lifestyle and sanitary and hygienic education of the population	Faculty therapy; General surgery; Faculty Surgery; Immunology; Hygiene; Occupational diseases; Epidemiology; Obstetrics and Gynecology	Hospital therapy; Endocrinology; Hospital surgery, pediatric surgery; Phthisiology
PC-6	Capable of maintaining medical records and organizing the activities of the nursing staff at the disposal	Faculty therapy; Faculty Surgery; Health organization and public health	Hospital therapy; Endocrinology; Hospital surgery, pediatric surgery

\* To be filled in according with the competence matrix of the higher education programme.

#### 4. INTERNSHIP WORKLOAD

The total workload of the internship " General Practitioner: Outpatient Physician's Assistant" is **3 credits (108 academic hours)**

#### 5. INTERNSHIP CONTENTS

*Table 5.1. Internship contents\**

Modules	Contents (topics, types of practical activities)	Workload, academic hours
Module 1.	Safety instruction	3
Module 2.	Organization of work of outpatient clinics	6
Module 3.	Work as an assistant doctor of outpatient clinics	90
Writing an internship report		9
Preparing for defence and defending the internship report		9
<b>In total:</b>		<b>108</b>

\* The contents of internship through modules and types of practical activities shall be FULLY reflected in the student's internship report.

#### 6. INTERNSHIP EQUIPMENT AND TECHNOLOGY SUPPORT REQUIREMENTS

The infrastructure and technical support necessary for the internship implementation include: laboratories/ specially equipped classrooms/ polygons/ measuring and computing complexes/ vehicles/ industrial equipment and devices/ household premises that comply with current sanitary and fire safety standards.

The SAFETY REQUIREMENTS at the enterprise, workplace (including the department of RUDN University) and during the work with certain production/laboratory equipment incorporate/ include the following (to be specified)....

#### 7. INTERNSHIP LOCATION AND TIMELINE

The internship can be carried out at the structural divisions of RUDN University (at

Moscow-based organisations, as well as those located outside Moscow. The internship at an external organisation (outside RUDN University) is legally arranged on the grounds of an appropriate agreement, which specifies the terms, place and conditions for an internship implementation at the organisation. The period of the internship, as a rule, corresponds to the period indicated in the training calendar of the higher education programme. However, the period of the internship can be rescheduled upon the agreement with the Department of Educational Policy and the Department for the Organization of Internship and Employment of RUDN students.
