**Federal State Autonomous Educational Institution
higher education "Peoples' Friendship University of Russia"**

Law institute

(name of the main educational unit (PMO) - the developer of the postgraduate program)

Department of Theory of Law and State / Department of History of Law and State

(name of the basic educational unit (BUE) - the developer of the postgraduate program)

WORKING PROGRAM OF THE DISCIPLINE

Methodology of scientific research

(name of discipline/module)

Scientific specialty:

5.1.1 Theoretical and historical legal sciences

5.1.5. International legal sciences

(code and name of scientific specialty)

The development of the discipline is carried out as part of the implementation of the postgraduate program:

Theoretical and historical legal sciences,
Legal sciences: Contemporary international law

(name of postgraduate program)

2022

1. THE PURPOSE OF MASTERING THE DISCIPLINE

The purpose of mastering the discipline "Methodology of scientific research" is to form an in-depth understanding of research activities, a systematic perception of science in modern society, scientific legal consciousness, scientific ideas, views and ideas about science, types of scientific rationality, norms, principles and methods of scientific research, skills organization of independent research activities based on modern methodology.

2. REQUIREMENTS FOR THE RESULTS OF MASTERING THE DISCIPLINE

Mastering the discipline "Methodology of scientific research" is aimed at preparing for the candidate's examinations, as well as:

- the formation of students' knowledge that allows them to effectively carry out research activities in the field of theoretical and historical legal, public law (state law), private law (civilistic), criminal law, international legal sciences, as well as teaching activities on educational programs of higher education;
- development of the ability to independently carry out research activities related to solving complex professional problems in modern conditions.

3. VOLUME OF DISCIPLINE AND TYPES OF EDUCATIONAL WORK

The total labor intensity of the discipline is 1 credit units, and the labor intensity of the intermediate certification in the discipline is 1 credit unit.

Table 3.1. Types of educational work by periods of mastering the postgraduate program

View educational work	TOTAL , acc.h.	Course			
		1	2	3	four
<i>Contact work , acc.h .</i>	18	18			
including _ number :					
Lectures (L)	12	12			
Laboratory work (LW)					
Practical / Seminar classes (S)	6	6			
<i>Independent work of students, acc .</i>	18	18			
<i>Intermediate attestation: control (exam), acc .</i>	36	36			
General laboriousness disciplines	ac.h. _	72	72		
	credits.	2	2		

4. CONTENT OF THE DISCIPLINE

Table 4.1. The content of the discipline (module) by type of educational work

Name section disciplines	Content section (topic)	View educational work
Section 1. Methodological foundations of scientific knowledge.	Definition of science. Science and other forms of development of reality. The main stages in the development of science. The concept of scientific knowledge. Methods of scientific knowledge.	L, S

Theoretical and experimental studies.	Methods and features of theoretical research. Structure and models of theoretical research. General information about experimental studies. Methodology and planning of the experiment. Processing the results of experimental studies.	
Section 2. Choosing the direction of scientific research.	Methods of choice and goals of the direction of scientific research. Statement of scientific and technical problem. Stages of research work. Relevance and scientific novelty of the study. Proposing a working hypothesis. The content of scientific research. Scientific problem, its formulation and formulation.	L, S
Section 3. Search, accumulation and processing of scientific information.	Documentary sources of information. Document analysis. Search and accumulation of scientific information. Electronic forms of information resources. Processing of scientific information, its fixation and storage.	L, S
Section 4. Methodology for working on the research manuscript. The content of the dissertation research. Dissertation preparation.	Analysis of information sources. Maintaining work records. Work with scientific literature. Manuscript work. Language and style of scientific work. Technology and organization of work on dissertation research. The structure and content of the dissertation research. Preparation of the main part of the dissertation research. Requirements for the design of a dissertation research.	L, S

LK - lectures, SZ - seminars.

5. LOGISTICS AND TECHNICAL SUPPORT OF THE DISCIPLINE

Table 6.1. Logistics of discipline

Type of audience	Equipment audience	Specialized educational / laboratory equipment, software and materials for mastering the discipline (at need)
Lecture	An auditorium for lecture-type classes, equipped with a set of specialized furniture; board (screen) and technical means of multimedia presentations.	A set of specialized furniture; technical means: Monoblock Multimedia projector Screen for projector Board marker WiFi
Seminar	An auditorium for conducting seminar-type classes, group and individual consultations,	A set of specialized furniture; technical means:

Type of audience	Equipment audience	Specialized educational / laboratory equipment, software and materials for mastering the discipline (at need)
	current control and intermediate certification, equipped with a set of specialized furniture and technical means for multimedia presentations.	Monoblock Multimedia projector Screen for projector Board marker WiFi
Computer Class	A computer class for conducting classes, group and individual consultations, current control and intermediate certification, equipped with personal computers (28 in number), a board (screen) and technical means of multimedia presentations.	A set of specialized furniture; technical means: Monoblocks Multimedia projector Screen for projector Interactive board WiFi
For independent work students	An auditorium for independent work of students (can be used for seminars and consultations), equipped with a set of specialized furniture and computers with access to the EIOS.	A set of specialized furniture; technical means: monoblocs WiFi

* - the audience for independent work of students is required!

6. EDUCATIONAL-METHODOLOGICAL AND INFORMATION SUPPORT OF THE DISCIPLINE

Main literature:

1. Federal Law of August 23, 1996 No. 127-FZ "On Science and State Science and Technology Policy"
