1. THE GOAL (MISSION) OF THE PROGRAMME.

The mission of the Master's program "International Business (in English)" is to train professional economists who are able to carry out effective design, economic and analytical activities in international companies and in international industry markets.

The purpose of the program "International Business (in English)" is the development of students' personal qualities that meet the requirements of the modern economy for working in international companies, taking into account their industry affiliation, as well as the formation of general cultural (universal), general professional and professional competencies in accordance with the requirements of the OS in RUDN in this field of training.

2. RELEVANCE, SPECIFICITY, UNIQUENESS OF THE EDUCATIONAL PROGRAMME

The main educational program "International Business (in English)" is a master's degree program in the field of preparation 38.04.01 ECONOMICS, which corresponds to the second level of higher education. The form of implementation of the master's program is full-time.

The specialty received at the end of the course of study is a Master of Economics. The form of study is full-time. The duration of training is 2 years.

The program has passed the International Accreditation procedure and is certified by the German agency FIBAA (Foundation for International Business Administration Accreditation).

When implementing the Master's degree program "International Business (in English)", a full-time form of implementation is provided, it is possible to use elements of e-learning and distance learning technologies. When teaching people with disabilities, e-learning and distance learning technologies should provide for the possibility of receiving and transmitting information in forms accessible to them.

According to the master's program "International Business (in English)", an applied orientation focused on a practice-oriented type of professional activity was chosen.

The field of professional activity of graduates who have mastered the master's program "International Business (in English)" are international economic, financial, marketing and analytical services of firms of various industries and forms of ownership.

The objects of professional activity of graduates who have mastered the Master's program "International Business (in English)" are: economic activity of international

companies and organizations, their costs and results, functioning markets, financial and information flows.

Types of professional activities for which graduates who have mastered the Master's degree program "International Business (in English)" are preparing:

- Project and economic;
- Analytical

Additional type of professional activity:

- Research and development

Information about the specifics of the implementation of the main educational program of the Master's degree "International Business (in English)":

- a form of organization of educational activities based on the modular principle of presenting the content of the educational program and building curricula is used;
- the implementation of the educational program provides for the use of various educational technologies, including e-learning, distance learning technologies.

The subject field of preparation of masters in the program "International Business (in English)" is organizational and managerial activity, which consists in:

- development of strategies for the development and functioning of enterprises, organizations and their individual divisions;
- management of economic services and divisions of enterprises and organizations of various forms of ownership, state and municipal authorities.

The place of implementation of the main educational program "Economics of Firms and Industry markets" is the Department of National Economics of the Faculty of Economics of the Peoples' Friendship University of Russia (Moscow, Miklukho-Maklaya str., 6).

3. THE LABOR MARKET NEEDS SATISFIED BY THE CURRENT PROGRAMME

The analysis of the state and trends in the development of the activities of international companies in the global economy shows that the formation and management of the knowledge base in the field of international economic relations, international economics and international industry markets is an important factor in increasing the potential of their competitiveness.

Modern international organizations are in urgent need of professional economists who form concepts and plans for business development, possess technologies and skills to prepare, make and implement effective decisions in conditions of resource and time constraints, ensuring high competitiveness and investment attractiveness of companies in conditions of global turbulence.

The demand for graduates of the Master's program "International Business (in English)" was determined by the program managers based on the analysis of the labor market, in particular the analysis of the professional sphere.

The Master's program "International Business (in English)" is focused on the training of economic personnel of the highest and middle management levels of international companies and organizations, to work in organizations of large, medium and small businesses in various sectors of the world economy, ready to work in conditions of increased requirements for professional mobility, able to think creatively and offer new ideas and non-standard solutions.

Its place in the labor market, determined by the leaders of the master's program "International Business (in English)", meets the requirements of the quality of graduate training that are in demand in the market in modern conditions. All students of this program are successfully employed.

5. SPECIAL REQUIREMENTS FOR POTENTIAL APPLICANTS

A potential applicant of the Master's degree program "International Business (in English)" should be prepared for activities that require in-depth economic professional training and knowledge of English.

The applicant must have a state-issued document on higher education. The University admits citizens of the Russian Federation, foreign citizens and stateless persons (hereinafter referred to as citizens, applicants, applicants) to study under educational programs of higher education on the basis of the Rules of Admission to the Federal State Autonomous Educational Institution of Higher Education "Peoples' Friendship University of Russia" to study under educational programs of higher education - bachelor's degree programs, specialty programs, master's degree programs for the next academic year.

Admission to Master's degree programs is carried out on the basis of a portfolio evaluated on a one-hundred-point scale.

6. FEATURES OF THE IMPLEMENTATION OF THE CURRENT PROGRAMME

6.1. When implementing the Master's degree program "International Business (in English)", e-learning and distance learning technologies can be used in this area of training. When teaching disabled people and persons with disabilities, e-learning and distance learning technologies should provide for the possibility of receiving and transmitting information in forms accessible to them. The implementation of master's degree programs in this area of training is possible in a network form.

The content of the main educational program of the Master's degree "International Business (in English)" includes the mandatory part (basic) and the part formed by the participants of educational relations (variable). The curriculum of the master's program consists of the following blocks: Block 1 "Disciplines (modules)", which includes disciplines (modules) related to the basic part of the program and disciplines (modules) related to its variable part. Block 2 "Practices, including research work (R&D)", which fully relates to the variable part of the program. Block 3 "State final certification", which fully relates to the basic part of the program, ends with the assignment of qualifications specified in the list of specialties and areas of higher education approved by the Ministry of Education and Science of the Russian Federation.

Educational activities under the Master's degree program "International Business (in English)" are carried out in the state language of the Russian Federation and in the languages defined by the local act of the RUDN.

6.2. The implementation language is English

6.3. The program is adapted for teaching disabled people and persons with disabilities

6.5 Information about the planned bases for conducting training/production practices and (or) research

Universal Competencies (UC)

Код и наименование УК	Код и наименование индикатора достижения компетенции
UC-1. Able to carry out a critical analysis of problem situations based on a systematic approach, to develop a strategy of actions.	UC-1.1. Analyzes the task, pointing out its basic components; UC-1.2. Determines and ranks the information required to solve the task; UC-1.3. Searches for information to solve the task by various types of queries; UC-1.4. Offers solutions to the problem, analyzes the possible consequences of their use; UC-1.5. Analyzes the ways of solving problems of ideological, moral and personal character based on the use of basic philosophical ideas and categories in their historical development and socio-cultural context.
UC-2. Able to manage the project at all stages of its life cycle.	UC-2.1. Formulates a problem, the solution of which is directly related to the achievement of the project goal; UC-2.2. Defines the links between the tasks set and the expected results of their solution; UC-2.3. Within the framework of the tasks set, determines the available resources and restrictions, the applicable legal norms; UC-2.4. Analyzes the schedule for the implementation of the project as a whole and chooses the optimal way to solve the tasks, based on the current legal norms and available resources and limitations; UC-2.5 Monitors the progress of the project, adjusts the schedule in accordance with the results of the control.
UC-3. Able to organize and manage the work of the team, developing a team strategy to achieve the goal.	UC-3.1. Determines its role in the team based on the strategy of cooperation to achieve the goal; UC-3.2. Formulates and takes into account in its activities the peculiarities of the behavior of groups of people, identified depending on the goal;

Код и наименование УК	Код и наименование индикатора достижения компетенции
	<p>UC-3.3. Analyzes the possible consequences of personal actions and plans its actions to achieve a given result;</p> <p>UC-3.4. Exchanges information, knowledge and experience with team members;</p> <p>UC-3.5. Argues his point of view regarding the use of ideas of other team members to achieve the goal;</p> <p>UC-3.6. Participates in team work on the execution of assignments.</p>
<p>UC-4. Able to apply modern communication technologies in the state language of the Russian Federation and foreign language(s) for academic and professional interaction.</p>	<p>UC-4.1. Chooses the style of business communication, depending on the language of communication, goals and conditions of partnership;</p> <p>UC-4.2. Adapts speech, communication style and sign language to interaction situations;</p> <p>UC-4.3. Searches for the necessary information to solve standard communication tasks in Russian and foreign languages;</p> <p>UK-4.4. Conducts business correspondence in Russian and foreign languages, taking into account the peculiarities of the style of official and unofficial letters and socio-cultural differences in the format of correspondence;</p> <p>UC-4.5. Uses dialogue for cooperation in academic communication, taking into account the personality of the interlocutors, their communicative and speech strategy and tactics, the degree of formality of the situation;</p> <p>UC-4.6. Forms and argues his own assessment of the main ideas of the participants of the dialogue (discussion) in accordance with the needs of joint activities.</p>
<p>UC-5. Able to analyze and take into account the diversity of cultures in the process of intercultural interaction.</p>	<p>UC-5.2. Finds and uses information about cultural peculiarities and traditions of various social groups in social and professional communication;</p> <p>UC-5.3. Takes into account the historical heritage and socio-cultural traditions of various social groups, ethnic groups and confessions, including world religions, philosophical and ethical teachings, in social and professional communication on a given topic;</p> <p>UC-5.4. Collects information on a given topic, taking into account the ethnicities and confessions most widely represented at the points of the study;</p> <p>UC-5.5. Substantiates the specifics of project and team activities with representatives of other ethnicities and (or) confessions;</p>

Код и наименование УК	Код и наименование индикатора достижения компетенции
	UC-5.6. Adheres to the principles of non-discriminatory interaction in personal and mass communication in order to fulfill professional tasks and strengthen social integration.
UC-6. Able to determine and implement the priorities of his own activities and ways to improve it based on self-assessment.	UC-6.1. Controls the amount of time spent on specific activities; UC-6.2. Develops tools and methods of time management when performing specific tasks, projects, goals; UC-6.3. Analyzes its resources and their limits (personal, situational, temporary, etc.), for the successful completion of the task; UC-6.4. Allocates tasks for long-, medium- and short-term with justification of relevance and analysis of resources for their implementation.
UC-7. Able to search for the necessary sources of information and data, perceive, analyze, memorize and transmit information using digital means, as well as using algorithms when working with data obtained from various sources in order to effectively use the information received to solve problems; evaluate information, its reliability, build logical conclusions based on incoming information and data	UC-7.1. Searches for the necessary sources of information and data, perceives, analyzes, remembers and transmits information using digital means, as well as using algorithms when working with data obtained from various sources in order to effectively use the information received to solve problems; UC-7.2. Evaluates information, its reliability, builds logical conclusions based on incoming information and data.

8.2. Upon completion of the development of the OP IN the graduate must have the following general professional competencies (OPK):

General Professional Competencies (GPC):

Код и наименование УК	Код и наименование индикатора достижения компетенции
-----------------------	--

Код и наименование УК	Код и наименование индикатора достижения компетенции
GPC-1. Able to apply knowledge (at an advanced level) of fundamental economics in solving practical and/or research problems.	GPC-1.1. Has fundamental knowledge in the field of economics. GPC- 1.2. Able to use fundamental knowledge to solve applied and/or research problems. GPC- 1.3. Has the skills to choose methods for solving practical and research problems based on fundamental economic knowledge.
GPC-2. Able to apply advanced instrumental methods of economic analysis in applied and/or fundamental research.	GPC- 2.1. Has knowledge of advanced instrumental methods of economic analysis. GPC- 2.2 Able to apply knowledge of advanced instrumental methods of economic and financial analysis when conducting applied and/or fundamental research.
GPC-3. Able to generalize and critically evaluate scientific research in economics.	GPC- 3.1. Develops a program of applied and/or fundamental research in the field of economics based on the evaluation and generalization of the results of scientific research conducted by other authors. GPC- 3.2. Prepares an analytical note on the results of applied and/or fundamental research in the field of economics. GPC- 3.3. Summarizes conclusions, prepares conclusions and formulates recommendations based on the results of applied and/or fundamental research in the field of economics.
GPC-4. Able to make economically and financially sound organizational and managerial decisions in his professional activity and be responsible for them.	GPC- 4.1. Develops organizational and managerial decisions in professional activity.
