6. LOGISTICS AND TECHNICAL SUPPORT OF PRACTICE

The main type of equipment required for internship are personal computers, presentation equipment, printers, scanners, etc.

The RUDN University has a material and technical base ensuring the implementation of all types of work stipulated by the program of practice.

Audiences of the Faculty of Humanities and Social Sciences of the RUDN University are equipped with multimedia equipment (audiences 410,414, 416, 514, 318, 325).

The implementation of the internship program provides each graduate student with access to information resources - the RUDN library and Internet network resources.

7. WAYS OF PRACTICE

"Pedagogical practice" is carried out on the basis of the Department of Theory and History of International Relations of the RUDN University.

The timing of the practice corresponds to the period specified in the calendar training schedule of the program. The timing of the internship can be adjusted upon agreement with the Department of Educational Policy and the Department for the organization of internships and employment of students at RUDN University.

*Educational and methodological materials for internship, filling out a diary and preparing an internship report *:*

1. Safety regulations for the passage of "Pedagogical practice" (initial briefing).
2. The general arrangement and principle of operation of technological production equipment used by students during their internship; flow charts and regulations, etc. (if necessary).
3. Guidelines for filling in a diary by students and preparing a practice report.

8. EVALUATION MATERIALS AND SCORE-RATING SYSTEM FOR ASSESSING THE LEVEL OF FORMATION OF COMPETENCES ON THE RESULTS OF PRACTICE

Evaluation materials and a point-rating system* for assessing the level of competence formation (part of competences) based on the results of passing the "Pedagogical practice" are presented below:

The general educational and methodical management of pedagogical internship and its control are carried out by the department to which the graduate student is attached. In order to implement the leadership of the department, the teacher, who is the general leader of the internship, identifies the supervisor. The supervisor provides each graduate student with a practice program, an individual assignment, a diary, methodological recommendations (recommendations for keeping a diary, recommendations for drafting a report, etc) and materials, supervises the work of graduate students.

The head of the internship provides general management, decides on organizational issues, draws up individual plans-tasks for graduate students, attends open classes, checks reports. For methodological guidance, they are attached to their supervisors or teachers, leading the discipline.

Graduate students are required to attend the classes of their supervisors in the

group assigned to them in order to 1) become familiar with the psychological characteristics of students; 2) to understand (and, if necessary, apply) the methods used by the teacher on the subject in this group; 3) to be able to logically continue the topic studied by the program and conduct a high- quality lesson.

A graduate student who has not completed the internship program without a valid reason, has received a negative review of work or an unsatisfactory rating in defending a report, by decision of the dean's office in consultation with the relevant department, may be sent to internship again in his spare time

A graduate student who has not completed the internship of any kind for a good reason, undergo an internship according to an individual plan.
