## mous Educational Institution of Higher Education RIENDSHIP UNIVERSITY OF RUSSIA RUDN University

**Institute of Medicine** 

educational division (faculty/institute/academy) as higher education programme developer

#### **COURSE SYLLABUS**

Ophthalmology

course title

#### **Recommended by the Didactic Council for the Education Field of:**

31.05.01 General Medicine

field of studies / speciality code and title

The course instruction is implemented within the professional education programme of higher education:

General Medicine

higher education programme profile/specialisation title

#### 1. COURSE GOAL(s)

The goal of the course "Ophthalmology" is to equip students with the scientific knowledge in the field of ophthalmology and the ability on their basis to identify deviations in the state of the organ of vision in people of different age, to carry out prevention and provide first aid to patients, taking into account further education and professional activities.

### 2. REQUIREMENTS FOR LEARNING OUTCOMES

Mastering the course (module) "Ophthalmology" is aimed at the development of the following competences /competences in part: GPC-5, GPC-7, PC-1, PC-2, PC-3, PC-5, PC-6.

| Competence<br>code | Competence descriptor  | <b>Competence formation indicators</b> (within this course)  |
|--------------------|--|--|
| GPC-5              | Being able to assess morpho-<br>functional, physiological<br>conditions and pathological<br>processes in the human body to<br>solve professional tasks | GPC-5.2. Being able to evaluate the results of clinical, laboratory and functional diagnosis when dealing with professional tasks.                           |
| GPC-7              | Being able to prescribe<br>treatment and monitor its<br>efficacy and safety  | GPC-7.1. Mastering skills in the<br>methods of general clinical<br>examination, interpretation of<br>laboratory results, instrumental<br>diagnostic methods. |

Table 2.1. List of competences that students acquire through the course study

| PC-1 Being able to provide emergency<br>urgent medical care to a patient |  | or PC-1.3. Being able to provide emergency<br>medical care to patients with sudden acute<br>diseases, conditions, exacerbation of<br>chronic diseases without obvious signs of<br>a threat to the patient's life.                     |  |
|--|--|---|--|
|  |  | PC-1.6. Being able to use drugs and medical devices when providing medical care in emergency or urgent forms.   |  |
| PC-2   | Being able to examine a patient in<br>order to determine a diagnosis | PC-2.1. Mastering the skills to collect<br>complaints, anamnesis of the patient's life<br>and disease, as well as conduct a complete<br>physical examination of the patient<br>(examination, palpation, percussion,<br>auscultation). |  |
|  |  | PC-2.2. Being able to make a preliminary diagnosis and make up a plan of laboratory and instrumental examinations of a patient.   |  |

|       |                                     | PC-2.4. Being able to refer a patient to an instrumental examination in case there are medical indications in accordance with the current procedures for the provision of medical care, clinical guidelines (treatment protocols) on the provision of medical care taking into account the standards of medical care.<br>PC-2.5. Being able to refer a patient to consult with a medical specialist if there is a medical indication in accordance with the current procedures for the provision of medical care taking into account the standards of medical care, clinical guidelines (treatment protocols) on the provision of medical care taking into account the standards of medical care. |
|-------|-------------------------------------|---|
| PC-3. | Being able to prescribe treatment   | PC-2.7. Being able to carry out differential diagnosis with other diseases/conditions, including the urgent ones, as well as to make a diagnosis taking into account the current international statistical classification of diseases and problems related to health (ICD).   |
|       | and monitor its efficacy and safety | drugs, medical devices and medical<br>nutrition taking into account the diagnosis,<br>age and clinical picture of the disease and<br>in accordance with the current procedures<br>for the provision of medical care, clinical<br>guidelines (treatment protocols) on the<br>provision of medical care taking into<br>account the standards of medical care.   |
|       |                                     | PC-3.3. Being able to prescribe non-drug<br>treatment taking into account the<br>diagnosis, age and clinical picture of the<br>disease in accordance with the current<br>procedures for the provision of medical<br>care, clinical guidelines (treatment<br>protocols) on the provision of medical care<br>taking into account the standards of<br>medical care.  |

| PC-5 | Being able to carry out preventive<br>measures and measures to promote<br>a healthy lifestyle and sanitary and<br>bygiene education among | <ul> <li>PC-3.4. Being able to assess the efficacy and safety of the use of drugs, medical devices, medical nutrition and other treatment methods.</li> <li>PC-5.4. Being able to carry out follow-up care of patients with diagnosed chronic noncommunicable diseases.</li> </ul>   |
|------|---|--|
|      | population and monitor their<br>effectiveness   | PC-5.5. Being able to prescribe preventive<br>measures to patients taking into account<br>risk factors in accordance with the current<br>procedures for the provision of medical<br>care, clinical guidelines (treatment<br>protocols) on the provision of medical care<br>taking into account the standards of<br>medical care. |
| PC-6 | Being able to keep medical records<br>and organize the activities of the<br>nursing staff   | PC-6.3. Being able to keep medical records, including in the electronic form.  |

#### **3. COURSE IN HIGHER EDUCATION PROGRAMME STRUCTURE**

The course refers to the <u>core</u>/variable/elective\* component of (B1) block of the higher educational programme curriculum.

\* - Underline whatever applicable.

Within the higher education programme students also master other (modules) and / or internships that contribute to the achievement of the expected learning outcomes as results of the course study.

Table 3.1. The list of the higher education programme components/disciplines that contribute to the achievement of the expected learning outcomes as the course study results

| Compet<br>ence<br>code | Competence descriptor  | Previous<br>courses/modules*  | Subsequent<br>courses/modules* |
|------------------------|--|---|--------------------------------|
| GPC-<br>5.2.           | Being able to evaluate the results of<br>clinical, laboratory and functional<br>diagnosis when dealing with<br>professional tasks.               | Biology,<br>Pathophysiology,<br>clinical<br>pathophysiology,<br>Propaedeutics of<br>internal diseases | Faculty Therapy                |
| GPC-<br>7.1.           | Mastering skills in the methods of<br>general clinical examination,<br>interpretation of laboratory results,<br>instrumental diagnostic methods. | Propaedeutics of internal diseases  | Policlinic Therapy             |

| PC-1.3. | Being able to provide emergency<br>medical care to patients with<br>sudden acute diseases,<br>conditions, exacerbation of<br>chronic diseases without obvious<br>signs of a threat to the patient's<br>life.  | Topographic anatomy<br>and operative surgery              | Policlinic Therapy                                   |
|---------|---|---|--|
| PC-1.6. | Being able to use drugs and<br>medical devices when providing<br>medical care in emergency or<br>urgent forms.  | Propaedeutics of internal diseases                        | Policlinic Therapy,<br>Other clinical<br>disciplines |
| PC-2.1. | Mastering the skills to collect<br>complaints, anamnesis of the<br>patient's life and disease, as well<br>as conduct a complete physical<br>examination of the patient<br>(examination, palpation,<br>percussion, auscultation).  | Propaedeutics of<br>internal diseases,<br>general surgery | Policlinic Therapy,<br>Other clinical<br>disciplines |
| PC-2.2. | Being able to make a preliminary<br>diagnosis and make up a plan of<br>laboratory and instrumental<br>examinations of a patient.  | Propaedeutics of<br>internal diseases,<br>general surgery | Policlinic Therapy,<br>Other clinical<br>disciplines |
| PC-2.4. | Being able to refer a patient to an<br>instrumental examination in case<br>there are medical indications in<br>accordance with the current<br>procedures for the provision of<br>medical care, clinical guidelines<br>(treatment protocols) on the<br>provision of medical care         | Propaedeutics of<br>internal diseases,<br>general surgery | Policlinic Therapy,<br>Other clinical<br>disciplines |
| PC-2.5. | Being able to refer a patient to<br>consult with a medical specialist<br>if there is a medical indication in<br>accordance with the current<br>procedures for the provision of<br>medical care, clinical guidelines<br>(treatment protocols) on the<br>provision of medical care taking | Propaedeutics of<br>internal diseases,<br>general surgery | Policlinic Therapy,<br>Other clinical<br>disciplines |

|         | into account the standards of medical care.  |   |  |
|---------|--|---|--|
| PC-2.7. | Being able to carry out differential<br>diagnosis with other<br>diseases/conditions, including the<br>urgent ones, as well as to make a<br>diagnosis taking into account the<br>current international statistical<br>classification of diseases and<br>problems related to health (ICD).   | Propaedeutics of<br>internal diseases,<br>general surgery | Policlinic Therapy,<br>Other clinical<br>disciplines |
| PC-3.2. | Being able to prescribe<br>medicinal drugs, medical<br>devices and medical nutrition<br>taking into account the<br>diagnosis, age and clinical<br>picture of the disease and in<br>accordance with the current<br>procedures for the provision of<br>medical care, clinical guidelines<br>(treatment protocols) on the<br>provision of medical care taking<br>into account the standards of<br>medical care. | general surgery   | Policlinic Therapy,<br>Other clinical<br>disciplines |
| PC-3.3. | Being able to prescribe non-drug<br>treatment taking into account the<br>diagnosis, age and clinical<br>picture of the disease in<br>accordance with the current<br>procedures for the provision of<br>medical care, clinical guidelines<br>(treatment protocols) on the<br>provision of medical care taking<br>into account the standards of<br>medical care.   | general surgery   | Policlinic Therapy,<br>Other clinical<br>disciplines |
| PC-3.4. | Being able to assess the efficacy<br>and safety of the use of drugs,<br>medical devices, medical<br>nutrition and other treatment<br>methods.  | general surgery   | Policlinic Therapy,<br>Other clinical<br>disciplines |
| PC-5.4. | Being able to carry out follow-up care of patients with diagnosed  | Immunology,<br>epidemiology                               | Policlinic Therapy,<br>Other clinical<br>disciplines |

|         | chronic noncommunicable<br>diseases  |                             |   |
|---------|--|-----------------------------|---|
| PC-5.5. | Being able to prescribe<br>preventive measures to patients<br>taking into account risk factors in<br>accordance with the current<br>procedures for the provision of<br>medical care, clinical guidelines<br>(treatment protocols) on the<br>provision of medical care taking<br>into account the standards of<br>medical care. | Immunology,<br>epidemiology | Other clinical<br>disciplines,<br>Доказательная<br>медицина |
| PC-6.3. | Being able to keep medical records, including in the electronic form.  | general surgery             | Policlinic Therapy,<br>Other clinical<br>disciplines        |

#### 4. COURSE WORKLOAD AND ACADEMIC ACTIVITIES

The total workload of the course <u>"Ophthalmology"</u> is 3 credits (108 academic hours).

*Table 4.1. Types of academic activities during the periods of higher education programme mastering (full-time training)*\*

| Type of academic activities    |         | Total             | Sen | nesters/tra | ining mod | ules |
|--------------------------------|---------|-------------------|-----|-------------|-----------|------|
|                                |         | academic<br>hours | 8   |             |           |      |

#### **5. COURSE CONTENTS**

*Table 5.1. Course contents and academic activities types* 

| Course module title | Course module contents (topics) | Academic activities types |
|---------------------|---------------------------------|---------------------------|
|---------------------|---------------------------------|---------------------------|

| Module 1<br>Introduction                                    | 1.1. The history of ophthalmology.   | LW |
|---|--|----|
|   | 1.2. The main tasks of General practitioners; the problem of ocular morbidity and blindness.                   | LW |
|   | 1.3. Evolution of the vision organ and the development of the human eye.                                       | LW |
| Module 2<br>Anatomy of<br>the eyeball                       | 2.1 Three parts of the visual analyzer. Anatomy of the orbit.  | LW |
|   | 2.2 Protective apparatus of the eye. Conjunctiva.  | LW |
|   | 2.3 Lacrimal organs. Tear secrection and evocuation.   | LW |
|   | 2.4 Tunics of the eyeball.   | LW |
|   | 2.5 Structures of the eyeball.   | LW |
| Module 3<br>Examination of<br>the anterior<br>and posterior | 3.1 examination of the eye<br>with the side light and in<br>transmitted light. The<br>basics of biomicroscopy. | LW |
| the eye   | 3.2 the technique of ophthalmoscopy.   | LW |
| Module 4<br>Methods of<br>examination of<br>eye function    | 4.1 Central and peripheral vision.   | LW |
|   | 4.2 Changes of the vision fields.  | LW |

|  | 4.3 Colour vision. Disorders of color perception.  | LW |
|--|--|----|
|  | 4.4 Light perception. Light adaptation.  | LW |
| Module 5 Visial<br>acuity.   | 5.1 Optic system of the visual organ.  | LW |
| Refraction.<br>Module6<br>Accomodation.  | <ul><li>5.2 Visual acuity.</li><li>5.3 Physical and clinical refraction.</li></ul>   | LW |
|  | 5.4 Accommodation and convergence.   | LW |
| Module 7 Clinic<br>refraction.<br>Astigmatism.<br>Presbyopia.<br>Correction of | <ul> <li>6.1 Clinical refractive errors.</li> <li>Hypermetropia and myopia</li> <li>6.2 Astigmatism, its types,<br/>principles of correction.</li> </ul> | LW |
| refractive errors.   | 6.3 Presbyopia, principles of correction.  | LW |
|  | 6.4 Refractive syrgery.  | LW |
| Module 8 The<br>muscles of the<br>eye. Binocular<br>vision.<br>Strabismus.     | <ul> <li>7.1 Binocular vision. Disorders of binocular vision.</li> <li>7.2 Strabismus, types. reasons.</li> </ul>  | LW |
|  | 7.3 Amblyopia.<br>Classification.  | LW |

|   | 7.4 Treatment of strabismus.   | LW |
|---|--|----|
| Module 9<br>Diseases of<br>eyelids,         | 8.1 Diseases of the eyelids.<br>Congenital anomalies of<br>the eyelids.                          | LW |
| lachrymal<br>organs, of the<br>orbit.       | 8.2 Diseases of the<br>lachrymal organs.<br>Differential diagnosis.<br>The methods of treatment. | LW |
|   | 8.3 Diseases of the orbit.<br>Tumors of the orbit.   | LW |
| Module 10<br>Diseases of the<br>conjunctiva | 9.1 Acute infectious<br>conjunctivitis.<br>Classification. Treatment.                            | LW |
|   | 9.2 Chronic conjunctivitis.<br>Classification. Treatment.  | LW |
|   |  | LW |
|   | 9.3 Allergic conjunctivitis.<br>Classification. Treatment.                                       |    |
|   | 9.4 Degenerative changes the<br>conjunctiva. Tumors of<br>the conjunctiva.<br>Treatment.         | LW |
| Module 11<br>Diseases of the<br>cornea and  | <ul><li>10.1 General symptomes of<br/>cornea diseases.</li><li>Exogenous keratitis.</li></ul>    | LW |
| sclera                                      | 10.2 corneal ulcer. Etiology,  | LW |

|   | clinical picture, treatment.<br>10.3 Avitaminoses of the<br>cornea.   | LW |
|---|---|----|
|   | 10.4 Outcomes of keratitis.<br>Treatment of keratitis and<br>their consequences.  | LW |
|   | 10.5 Sclerites. The clinical symptomes.   | LW |
| Module 12<br>Diseases of the                              | 11.1 Uveitis. Etiology and classification.  | LW |
| vascular tunic  | 11.2 Iritis. Iridocyclitis.<br>Clinical picture,<br>diagnostics, treatment.   | LW |
|   | 11.3 Chorioretinitis. Clinical picture, diagnostics, treatment.   | LW |
|   | 11.4 Degenerative changes in<br>the vascular tunic.<br>Congenital anomalies.  | LW |
|   | <ul><li>11.5 Tumors of the vascular<br/>tunic. Diagnosis.<br/>Treatment.</li></ul>  | LW |
| Module 13<br>Diseases of the<br>retina and<br>optic nerve | 12.1 Retinal changes in the<br>cases of systemic<br>diseases. The clinical<br>picture. Treatment.                           | LW |
|   | 12.2 Degenerative changes of<br>the retina. The clinical<br>picture. Treatment.   |    |
|   | 12.3 nflammatory and not<br>inflammatory diseases of<br>the optic nerve. Features<br>of the clinical picture.<br>Treatment. |    |

|  | 12.4 Congenital anomalies<br>and tumors of the retina<br>and optic nerve. Features<br>of diagnostics and<br>treatment.  |          |
|--|---|----------|
| Module 14<br>Glaucoma  | <ul> <li>13.1 Definition of glaucoma.<br/>Normal and elevated IOP.</li> <li>13.2 Etiology, pathogenesis<br/>and classification of<br/>glaucoma.</li> <li>13.3 Acute attack of<br/>glaucoma. Features of the<br/>clinical picture.<br/>Treatment.</li> <li>13.4 Methods of treatment of<br/>glaucoma.</li> </ul> | LW       |
| Module 15<br>Diseases of the<br>crystalline<br>lens.<br>Prevention and<br>treatment.                     | <ul> <li>14.1 Definition of cataract.<br/>Classification of<br/>cataracts. Link cataracts<br/>development with<br/>systemic diseases.</li> <li>14.2 Modern principles of<br/>treatment of cataract.</li> <li>14.3 Diseases of the vitreous<br/>body.</li> </ul>   | LW       |
| Module 16<br>Damage to the<br>organ of vision<br>and their<br>prevention.<br>Organization<br>of eye care | <ul> <li>15.1 The causes and<br/>classification of eye<br/>injuries. Damage to the<br/>eyelids.</li> <li>15.2 Blunt trauma of the eye-<br/>ball. Trauma of the orbit.<br/>Diagnosis. Treatment.</li> </ul>  | LW<br>LW |
