11. Methodical instructions for the students that study the discipline

Students are required to attend classes, perform tasks in the framework of classroom and independent work using recommended textbooks and teaching aids, electronic educational resources, databases, information and reference and search electronic systems.

The certification assesses the quality of students' work in the classroom, the completeness and quality of the assignment for independent work, the ability to solve professional-communicative tasks in the field of interpersonal communication.

Practical classes in the classroom provide training in targeted interpersonal skills and skills using multimedia technology (computer, projector).

Independent work in extracurricular hours can take place both in the classrooms of the department and in the computer classroom of the Medical Institute, where students can complete assignments based on materials developed by the teachers of the department. The extracurricular independent work includes the implementation of specially designed blocks of tasks, the preparation of messages on the proposed topics, and preparation for the performance of examinations (including in the form of tests).

Academic materials in electronic form on a number of studied topics are posted on the department website, in the personal offices of employees on the RUDN Learning Portal, in the TUIS, on local resources of the RUDN Electronic Library System. Presentations on the topics of
classes can be recorded on CDs or flash cards for independent work of students on a home computer.

**Academic ethics**

When preparing creative works, it is necessary to observe the requirements of academic ethics.

All footnotes in the creative work are carefully checked and provided with links to the source of information. Direct quotes are given in quotes and are also accompanied by corresponding footnotes.
