**Federal State Autonomous Educational Institution of Higher Education
PEOPLES' FRIENDSHIP UNIVERSITY OF RUSSIA
NAMED AFTER PATRICE LUMUMBA
RUDN University**

Institute of Russian Language

(educational division (faculty/institute/academy) as programme developer)

Russian Language Department No 2

(department realizing the PhD program)

SCIENTIFIC RESEARCH PLAN

Scientific specialty:

5.8.7. Methodology and Technology of Vocational Education

(scientific speciality code and title)

The PhD student's internship is implemented within the PhD programmes:

Professional Education: Methodology and Technology

(PhD program title)

1. DISCIPLINE (MODULE) GOAL

The purpose of carrying out scientific research (carrying out scientific activities) is to prepare a dissertation for the scientific degree of Candidate of Sciences for defense.

2. REQUIREMENTS FOR LEARNING OUTCOMES

The result of scientific research is the solution of a scientific problem that is important for the development of the relevant branch of science, or the development of a new scientifically based technical, technological or other solution that is essential for the development of the country.

Preparation of a dissertation for defense includes the implementation of an individual scientific activity plan, writing, finalizing and submitting a dissertation for final certification.

The scientific activity plan includes an approximate plan for the implementation of scientific research, a plan for the preparation of a dissertation and publications that outline the main scientific results of the dissertation, as well as a list of stages of mastering the scientific component of the postgraduate program, the distribution of these stages and the final certification of graduate students.

The plan of scientific activity of a particular student is approved in the individual plan of scientific activity of a graduate student, the requirements for which are established by the relevant local regulatory act of the RUDN University.

3. WORKLOAD OF THE DISCIPLINE AND TYPES OF ACTIVITIES

The overall workload of the scientific research is 149 credits (5364 academic hours).

4. RESEARCH CONTENTS

Stages	Stage content (types of activities)	Workload, acad. hours
First Year		
Research activity aimed at preparing for a dissertation defense	Determination of the direction and concept of research, identification of relevant issues in the field of professional education. Discussion of the concept and plan of dissertation at the department meeting, approval of the topic of dissertation research.	1495
	Analyzing the scientific literature on the research topic to determine the degree of the research problem development, formulating the presumed novelty of scientific results. Preparation of historiography and the list of scientific sources for the research.	
	Setting the goal and objectives of research, defining the object and subject of scientific research.	
	Analysis of the main approaches, concepts and their evolution on the topic of research.	
	Selection of research methods.	
	Development of a methodological apparatus, preparation of the methodological section of the dissertation.	
Publication Activity	Determination of a plan for the preparation of articles, abstracts, and reports for conferences in accordance with the research topic in the field of professional education.	216
	Publication of research results - scientific articles, monographs (at least 1 publication in Russian Science Citation Index (RSCI) indexed journals, or Higher Attestation Commission list journals)	

	Presentation of research results at scientific conferences, round tables, seminars with mandatory publication of theses, articles in conference proceedings	
Intermediate certification	Preparation of a report on the results of scientific research and its presentation at the meeting of the department	18
Second year		
Research activity aimed at preparing for a dissertation defense	Data collection on the dissertation topic	1458
	Making scientific hypotheses (hypotheses of empirical research)	
	Conducting empirical research on the subject of the dissertation, processing, analysis and synthesis of results.	
	Preparation of the text of the 1 st chapter of the dissertation	
Publication Activity	Publication of the main scientific research results in scientific articles, at least 1 publication in Web of Science/ Scopus, Russian Science Citation Index (RSCI) indexed journals, at least 1 publication in Higher Attestation Commission list journal	216
	Presentation of research results at scientific conferences, round tables, seminars with mandatory publication of theses, articles in conference proceedings	
	Participation and presenting reports at research seminars of Institute of Russian Language	
Intermediate certification	Preparation of a report on the results of scientific research and its presentation at the meeting of the department	18
Third year		
Research activity aimed at preparing for a dissertation defense	Conducting empirical and statistical analysis on the topic of the dissertation, processing, analyzing, and summarizing the obtained results.	1710
	Preparation of the text of the 2 nd chapter of the dissertation	
	Revision of the dissertation in accordance with requirements, submitting for reviewing and final assessment.	
Publication Activity	Publication of the main scientific research results in scientific articles, at least 1 publication in Web of Science/ Scopus, Russian Science Citation Index (RSCI) indexed journals, at least 1 publication in Higher Attestation Commission list journal	216
	Participation and presenting reports at research seminars of Institute of Russian Language	
	Presentation of research results at scientific conferences, round tables, seminars with mandatory publication of theses, articles in conference proceedings	
	Summarizing the results of publication activity	
Intermediate certification	Preparation of a report on the results of scientific research and its presentation at the meeting of the department	18
Total academic hours of scientific research:		5364

5. EQUIPMENT AND TECHNOLOGY SUPPORT REQUIREMENTS

Audience type	Equipping the audience	Specialized educational/laboratory equipment, software and materials for the development of the discipline (if necessary)
Lecture hall	An audience equipped with specialized furniture, a board (screen), and multimedia presentation equipment is required for conducting lecture-type classes.	projector, screen, computer
Seminary	An audience for conducting seminar-style classes, group and individual consultations, ongoing monitoring, equipped with a set of specialized furniture and multimedia presentation technical equipment.	projector, screen, computer, chalkboard
For independent work of students	An audience for independent work of students (which can also be used for conducting seminars and consultations), equipped with a set of specialized furniture and computers with access to electronic instructional and educational resources.	projector, screen, computer

6. METHODS OF CONDUCTING SCIENTIFIC RESEARCH

Scientific research is carried out in the structural divisions of the RUDN University, as well as in partner organizations of the Institute of Russian Language.

7. EDUCATIONAL-METHODOLOGICAL AND INFORMATION SUPPORT FOR SCIENTIFIC RESEARCH

8. ASSESSMENT TOOLKIT AND GRADING SYSTEM FOR EVALUATION OF PHD STUDENTS' COMPETENCES LEVELS AS SCIENTIFIC RESEARCH RESULTS

Based on the results of the stages of scientific research, the PhD student submits a detailed written report to the supervisor and oral report at the department meeting. The report includes information characterizing the content of the PhD student's work and reflecting the implementation of scientific research.

The report must include information:

- about the degree of readiness of the dissertation;
- on the preparation and publication of articles in journals included in the list of Higher Attestation Commission, Russian Science Citation Index, Scopus, Web of Science and others equated to them and/or approved by the Academic Council of RUDN University;
- on the participation of a PhD student in scientific and technical events on the topic of his research;
- on participation in the research work of the department (with participation);
- other.

During the interim certification period, the supervisor provides feedback on the quality, timeliness and success of the PhD student's stages of scientific activity.

The results of scientific research for every six months of study are determined by conducting an intermediate certification with grades «excellent», «good», «satisfactory», «unsatisfactory» and in the ECTS system (A, B, C, D, E) in accordance with the rating system.
