**Federal State Autonomous Educational Institution of Higher Education
PEOPLES' FRIENDSHIP UNIVERSITY OF RUSSIA
RUDN University**

Faculty of Philology

educational division (faculty/institute/academy) as higher education programme developer

COURSE SYLLABUS

Media economics

course title

Recommended by the Didactic Council for the Education Field of:

42.04.02 Journalism

field of studies / speciality code and title

The course instruction is implemented within the professional education programme of higher education:

Global and Digital Media

higher education programme profile/specialisation title

1. OBJECTIVE OF THE DISCIPLINE

The goal of the discipline is to provide students with theoretical and practical knowledge of the basic concepts of the course "Media Economics", as well as characterize the essence of economic processes in order to manage the economy of a media company, manage the financial flows generated by an enterprise.

The main objectives are:

- Mastery of basic concepts and terminology of media economics;
- Form a clear idea that media economics studies the characteristics of the media market and journalistic information as a commodity;
- Awareness of the importance of media economics in today's increasingly globalized world;
- Development of ability to analyse media economics differences in developing and mature markets;
- Development of critical thinking;
- To learn the reasons for the emergence of media marketing and its place in the media economy;
- Mastery of strategies of media economics;
- Formation and development of media economics skills;
- Development of business-communication flexibility.

2. REQUIREMENTS TO STUDENTS ON FINISHING THE COURSE

Students are expected to master the following competencies:

Table 2.1. The list of competencies formed in the mastering of the discipline (the results of the discipline)

Code	Competence	Indicators of competence achievement (within the discipline)
UC-2	Able to manage the project at all stages of its life cycle	UC-2.1. Knows the organizational and technological methods, principles and tools used in project work; methods, criteria and parameters of presentation, description and evaluation of the results/products of project activities
		UC-2.2. Know how to develop project terms of reference, project schedule; prepare, check and analyze project documentation; prepare and present project results in the form of reports, articles, conference presentations; organize and coordinate the work of project participants
		UC-2.3. Knows how to effectively organize and coordinate the stages of the project to achieve the

Code	Competence	Indicators of competence achievement (within the discipline)
		best results while balancing the amount of work and resources
UC-3	Able to organize and lead a team, developing a team strategy to achieve the goal	UC-3.1. Knows the basic rules and conditions for organizing effective teamwork; the basic principles that determine the plan of action to achieve the goal
		UC-3.2. Able to supervise team members, distributing and delegating authority among them to achieve the fastest and best results
		UC-3.3. Knows the skills of competent and effective organization, coordination and management of team interaction in solving professional problems to achieve the set goal
GPC-2	Able to analyze the main trends in the development of public and state institutions for their diverse coverage in created media texts and/or media products, and/or communication products	GPC-2.1. Identifies cause-and-effect relationships in the problems of interaction between public and state institutions
		GPC-2.2. Observes the principle of impartiality and balance of interests in the journalistic texts and (or) products created when covering the activities of public and state institutions
