## 5. CONTENT OF THE DISCIPLINE

*Table 5.1. Contents of the discipline (module) by types of academic work*

Section number	Name of the discipline section	Section (Topic) Contents		Type of academic work*
Section 1	General characteristics of the subject	1.1	Component composition of the item. The full composition of the subject. Incomplete component composition of the subject. The presence / absence of a component in the structure. The combination of the components of the subject. Item location. The orientation of the subject in space. The way the location of the item.	SZ
		1.2	Qualitative and quantitative composition of the subject. Qualitative composition of the subject. Qualitative and quantitative composition of the subject.	SZ
		1.3	Properties, shape and surface relief of an object. Object properties. The shape of the object. The surface relief of objects.	SZ
Section 2	Subject and its basic signs	2.1	Qualitative characteristics of the subject. The color of the object. The taste and smell of the object. Consistency of the object. Object properties.	SZ
		2.2	Quantitative characteristics of the subject. The numerical value of the size, size, weight of the object. Fluctuations in the size of an object. The maximum size of the object. Exceeding an object of a certain size.	SZ
		2.3	Function of the subject. Function identification. The essence of the function. Conditionality of the function of the subject.	SZ
		2.4	Classification of the subject. Classes of objects. Classification attribute and object classes. Representatives of the class of the subject.	SZ
Section 3	Key signs and characteristics of the process	3.1	General characteristics of the process. The essence of the process. The presence of the process, distributors with the value of the circumstantial characteristics of the process. Types (types, forms) of the process. Carriers of the process.	SZ
		3.2	Stage of the process. The presence and number of process steps. The sequence of stages of the process and the place of the stage in the process. The processes occurring at each stage. The duration of the stage.	SZ
		3.3	Conditioning of the process. The connection between the process and the factor. Factor reason. Factor condition. The nature of the influence of the factor condition on the process.	SZ
Section 4	Life of a biological organism and its characteristics	4.1	Change in the qualitative and quantitative characteristics of an object (object, microorganism). Changing the characteristics of an object. Resize an object. Change the shape of an object. Change the color of an object.	SZ
		4.2	The appearance of the object and its death. The formation of the objects. The disappearance (termination) of objects.	SZ
		4.3	Change of location of an object and process dynamics. The nature and direction of movement. Fluid movement. Change in the intensity of processes. Change of the frequency of processes.	SZ
		4.4	The role and significance of the process.	SZ

			Assessment of the process in terms of importance, significance. Assessment of the process in terms of benefits or harms.
