Федеральное государственное автономное образовательное учреждение высшего образования
«Российский университет дружбы народов имени Патриса Лумумбы»

Инженерная академия

(наименование основного учебного подразделения (ОУП) – разработчика программы)

Утверждена на заседании
ученого совета ОУП
протокол от 02 марта 2026 г.
№ 2022-08/07

ПРОГРАММА ПОДГОТОВКИ НАУЧНЫХ И НАУЧНО-ПЕДАГОГИЧЕСКИХ КАДРОВ В АСПИРАНТУРЕ

Научная специальность:

**1.6.11. Геология, поиски, разведка и эксплуатация нефтяных и газовых
месторождений**

(шифр и наименование научной специальности)

Направленность (профиль):

**Geology, Prospecting, Exploration and Exploitation of Oil and Gas Fields / Геология,
поиски, разведка и эксплуатация нефтяных и газовых месторождений (англ.)**

(наименование программы подготовки научных и научно-педагогических кадров в аспирантуре)

Программа подготовки научных и научно-педагогических кадров в аспирантуре
разработана в соответствии с требованиями:

СУТ РУДН, утвержденных приказом ректора от 09 марта 2022 г. № 139

Срок освоения программы подготовки научных и научно-педагогических кадров в
аспирантуре:

3 года

(очная форма обучения)

Сведения об особенностях реализации программы: реализуется на английском языке.

СОГЛАСОВАНО:

Руководитель программы
Страхов П. Н.

(подпись)

Начальник УОП
Воробьева А. А.

(подпись)

Руководитель ОУП
Разумный Ю. Н.

2026 г.

1. EDUCATIONAL PROGRAMME GOAL

The goal of the PhD program is to prepare and defend a dissertation for the degree of Candidate of Sciences in the scientific specialty 1.6.11. Geology, prospecting, exploration and exploitation of oil and gas fields.

2. BRIEF SUMMARY OF THE PROGRAMME

The program is focused on the training of highly qualified specialists in the direction of training geology, prospecting, exploration and exploitation of oil and gas fields. The curriculum is designed in such a way that it allows students to form professional competencies that are currently in demand. The purpose of the program is to create conditions for acquiring the necessary level of knowledge, skills, experience and experience for the implementation of professional activities and preparing for the defense of a scientific qualification work (dissertation) for the degree of candidate of sciences, as well as conducting scientific research in the interests of the development of science, mankind and humanitarian values. Research activities within the framework of the educational program cover the field of science and technology, which studies:

- Earth and its main geospheres - lithosphere, hydrosphere, atmosphere, biosphere, their composition, structure, evolution and properties;
- geological and production facilities of subsoil development; oil and gas prospecting and exploration;
- safe and environmentally friendly exploration and exploitation of oil and gas fields;
- methods and systems for the design of hydrocarbon prospecting, exploration and typing;
- software tools to study the geological structure of fields, modeling of their formation processes, as well as prospecting and exploration; processing and analysis of research results.

In the process of studying, postgraduate students receive theoretical and practical training and skills in research and scientific and pedagogical work, which allow them to work effectively after completing the study of the educational program in enterprises of various fields and industries in senior positions, as well as in research and educational organizations.

3. LABOR MARKET NEEDS FOR PERSONAL TRAINING IN EDUCATIONAL PROGRAMME PROFILE

Graduates who have mastered this program are focused on work in Russian and international companies, enterprises, educational institutions, research organizations in various fields of industry related to geology, prospecting, and exploration of oil and gas fields. State and commercial structures of science-intensive industries are interested in graduates, in particular, enterprises related to the Earth sciences and other leading industries.

Graduates who have mastered this program are oriented to work in the Russian and international companies specializing in geology, prospecting, and exploration of oil and gas fields: design and development, production, operating organizations, research centers, higher educational institutions.

Analysis of the status and trends of development of research and educational activities in the field of geology, prospecting, and exploration of oil and gas fields shows that the training of researchers in this industry is one of the necessary conditions for increasing the capacity and competitiveness of domestic educational institutions of higher education, research organizations and enterprises of mining and geological industry, carrying out within their activities scientific and educational.

In the professional sphere, the main consumers of the educational program are such organizations and enterprises in Russia as:

a) in federal authorities - Ministry of Energy of the Russian Federation, Ministry of Natural Resources and Environment of the Russian Federation, Federal Agency for Subsoil Use (Rosnedra) in the position of specialist-expert, leading consultant, head of department, director of department, deputy minister, minister.

b) in the leading research institutes of RAS - Institute of Oil and Gas Geology Problems (IPNG, Moscow), A.A. Trofimuk Institute of Petroleum Geology and Geophysics (RAS), from researcher to chief researcher, head of laboratory, deputy director and director of the institute.

c) in leading geological state and commercial organizations: All-Russian Research Institute of Geology of Foreign Countries (VNIIZARUBEZHGEOLGIA), All-Russian Oil Research Institute (VNIGNI, Moscow), All-Russian Research Institute of Organization, Management and Economics of Oil and Gas Industry (VNIIOENG, Moscow), Transneft, Gazprom, Zarubezhneft, Caspian Pipeline Consortium, "Tatneft, LUKoil, YUKOS, TNK, Slavneft, Rosneft, VSNK, Surgutneftegaz, Joint Stock Company All-Russian Oil and Gas Research Institute, Chevron Oil Corporation (USA), Elf Akiten oil company (France), Erdoye Erdgas oil and gas company (Germany), Vietsovetpetro (Vietnam), Petron Industries Inc. in positions from manager to company head.

d) Graduate students will also be able to successfully teach at leading universities in Russia (Moscow State University, St. Petersburg State University, RGGU, TSU, TPU, NSU, KFU, SFU, RUDN, RSU of Oil and Gas, FEFU, Moscow Institute of Oil and Gas Business, etc.) and abroad as an associate professor, professor, head of department, dean, vice rector, rector....

4. REQUIREMENTS FOR APPLICANTS APPLYING TO THE PHD PROGRAMME

For admission to the program, the Admission Rules apply, approved by the relevant local regulatory act and posted in the public domain on the official website of the RUDN University.

5. STRUCTURE AND WORKLOAD OF THE EDUCATIONAL PROGRAMME FOR PhD STUDIES

Duration of mastering the postgraduate program: 3 years.

Form of education: full-time.

One credit unit corresponds to 36 academic hours.

No.	PhD programme structure	Workload, credit units
1	Scientific Component	149
2	Educational Component	25
2.1	Disciplines (modules)	19
2.2	Internship	6
3	Final attestation	6
PhD programme workload in credit units:		180

6. CHARACTERISTICS OF EDUCATIONAL PROGRAMME GRADUATE'S PROFESSIONAL ACTIVITIES

The field(s) of professional activities of the Educational Programme graduate, where he/she can carry out his/her professional activities: in science and technology related to geology, prospecting, and exploration of solid minerals:

- research, modeling, design of methods of prospecting, exploration and development of oil and gas fields;

- study, design and management of natural-technogenic systems in the search and exploration of oil, gas condensate, associated and natural gas using modern technologies of hydrocarbon reserves estimation;

- research and development of innovative solutions to improve the technical level of exploration and calculation of oil and gas reserves;

- teaching activity in the field of geology, prospecting, and exploration of oil and gas...

7. LOCATION OF IMPLEMENTATION OF THE PHD PROGRAMME

The PhD program is implemented by the Federal State Autonomous Educational Institution of Higher Education Peoples' Friendship University of Russia named after Patrice Lumumba.

The information about partner organisations involved in the implementation of the PhD programme:

Internship and Scientific Research	Internship location
Pedagogical Training (stationary)	RUDN University, Moscow
Research activity aimed at preparing for a thesis defense (stationary)	RUDN University, Moscow; Third party organizations performing research and development, depending on the focus of the research

8. FEATURES OF EDUCATIONAL PROGRAMME IMPLEMENTATION

The PhD program is implemented with elements of DET (based on the TUIS platform).

The language of implementation of the PhD program is English.

The program is *not adapted* for teaching the disabled and people with disabilities.
