Law Institute

educational division (faculty/institute/academy) as higher education programme developer

COURSE SYLLABUS

Research Work

Recommended by the Didactic Council for the Education Field of:

45.04.02 Linguistics

field of studies / speciality code and title

The student's research work is implemented within the professional education programme of higher education:

MA in Translation and Interpreting for Public Services and Institutions higher education programme profile/specialisation title

1. RESEARCH WORK GOAL(s)

The goal of the research work is the formation of systemic skills in the field of interpretation / translation research in areas related to multilingual communication in the system of public services and institutions.

2. REQUIREMENTS FOR LEARNING OUTCOMES

The research work implementation is aimed at the development of the following competences (competences in part):

Table 2.1. List of competences that students acquire during the research work

Competence and Competence		Competence formation indicators	
Competence code	descriptor	(within this course)	
GPC-1	Masters the system of theoretical and empirical knowledge about the functioning of the system of the foreign language under study and its development trends; masters the system of values and perceptions of the communities of the countries whose languages are learnt	GPC-1.1 Knows the system of the foreign language under study, principles, patterns, and tendencies of its functioning in various communicative contexts, taking into account the values and ideas of the communities of the countries whose languages are learnt GPC-1. 2 Masters comprehensive tools to apply linguistic and extralinguistic knowledge in various communicative contexts, taking into account values and perceptions of the communities of the countries whose languages are learnt	
GPC - 2	Knows the specifics of foreign scientific worldview and masters the academic discourse in Russian and foreign languages being learnt	GPC-2.1 Knows the specifics of the scientific picture of the world and the components of its discursive modeling in Russian and the foreign languages being learnt GPC-2.2 Masters comprehensive tools to produce academic discourse in Russian and foreign languages	
GPC -6	Masters modern technologies to collect, process and interpret the obtained experimental data, methods to compile and format research documentation (dissertation, report, review, abstract).	GPC-6. 1 Knows the standards and format research documentation (dissertation, report, review, abstract). GPC-6.2 Masters comprehensive tools to collect, process and interpret the obtained experimental data, methods to compile and format research documentation (dissertation, report, review, abstract).	
GPC-7	Can work with the major search engines, expert systems and other knowledge systems as well as systems of verbal information processing	GPC-7. 1 Knows major search engines, expert systems for knowledge representation and verbal information processing. GPC-7. 2 Masters comprehensive digital tools for knowledge representation and verbal information processing.	

Competence code	Competence descriptor	Competence formation indicators (within this course)
GPC-8	Can use digital technologies and methods in professional activities to study and model objects of professional activities, data analysis, information presentation, etc.	GPC-8. 1 Knows digital technologies relevant for the translator and interpreter's professional activities GPC-8.2 Masters comprehensive digital tools to explore and model objects of professional activities, data analysis, information presentation, etc. within translator and interpreter's professional activities
GC -7	Can find the necessary sources of information and data, comprehend, analyze, memorize information while using digital devices and algorithms; use various types of information from different sources in an effective way in problem-solving; assess the information, its authenticity, infer and deduct based on the input data and information.	GC-7.1 Knows the relevant approaches, tools, and techniques to search for information from various sources, its processing and further use GC-7.2 Masters comprehensive tools to evaluate information, integrate, reshape and tailor it in line with context-specific tasks

3. RESEARCH WORK IN HIGHER EDUCATION PROGRAMME STRUCTURE

The research work refers to the core component of B2 block of the higher educational programme curriculum.

Within the higher education programme students also master other disciplines (modules) that contribute to the achievement of the expected learning outcomes as results of the research work

Table 3.1. The list of the higher education programme components that contribute to the achievement of the expected learning outcomes as the research work results.

Compet ence code	Competence descriptor	Previous courses/modules	Subsequent courses/modules,
GC-4	Can apply modern communication techniques using the official language of the Russian Federation and foreign language(s) in academic and professional interaction	Quantitative Linguistics and IT (in English)	-
GC-5.	GC -5 Can analyze and consider cultural diversity during cross cultural interaction.	General Linguistics and History of Linguistic Studies (in English)	-

4. RESEARCH WORKLOAD

The total workload of the research work is 15 credits (540 academic hours).

5. RESEARCH WORK CONTENTS

Table 5.1. Research work contents*

* The contents of internship through modules and types of practical activities shall be <u>FULLY</u> reflected in the student's internship report.

N⁰	Stage type	Module contents	Workload,		
			academic hours		
	Curriculum Module 4 (2 credits) 72 academic hours				
1.	1. Preparatory stage	Safety briefing. Consultating with the research	4		
		supervisor or a department staff member			
		responsible for research on the goals, objectives			
		and content of the research work, the main			
		methods of research work, documentation.			
		Drafting an individual research task under the			
		supervisor's guidelines.			
2.	2. Main stage	Developing the master's degree concept.	50		
		Compiling a preliminary bibliography of the			
		WRC. Drafting a preliminary plan for the thesis			
		Participating in scientific events at RUDN			
		University and outside RUDN University (if			
		necessary)			
3.	Drafting a report		9		
4.	4. Preparing for report defence and its defence		9		
Curriculum Module 5 (2 credits) 72 academic hours					
1.	1. Preparatory stage	Safety briefing. Consulting with the research	2		
		supervisor or a department staff member			
		responsible for research. Correcting the individual			
		task with the supervisor (if necessary)			
2.	2. Main stage	Exploring the capacity and stocks of the RUDN	70		
		University library.			
		Compiling sources for the thesis writing. Drafting			
		the reference list (at least 80 sources) on the			
		research topic for the last 5 years			

	Curriculum Module 6 (5 credits) 180 academic hours			
5.	1. Preparatory stage	Safety briefing. Consulting with the research	2	
		supervisor or a department staff member		
		responsible for research. Correcting the individual		
		task with the supervisor (if necessary)		
6.	2. Main stage	Проведение эмпирического исследования для		
		подготовки научной статьи по любому аспекту	160	
		темы ВКР. Согласование с научным		
		руководителем названия научной статьи.		
		Подготовка научной статьи по теме ВКР.		
		Участие в научных мероприятиях в РУДН и		
		вне РУДН (при необходимости)		
		Подготовка развернутого плана ВКР		
		Conducting an empirical study to prepare a		
		scientific article on any aspect of the thesis topic.		
		Consulting with the supervisor on the title of the		
		scientific article. Drafting a scientific article on		
		the thesis topic. Participating in scientific events		
		at RUDN University and outside RUDN		
		University (if necessary)		
		Preparation of a detailed thesis plan		
7.	Drafting a report		9	
8.	Preparing for report de		9	
	Γ	Curriculum Module 7(6 credits) 216 academic hou		
9.	1. Preparatory stage	Safety briefing. Consulting with the research	18	
		supervisor or a department staff member		
		responsible for research. Correcting the individual		
		task with the supervisor (if necessary)		
10.	2. Main stage	Conducting an empirical study for the thesis	180	
		preparation. Consulting with the supervisor on the		
		first and second chapters of the thesis.		
		Participating in scientific events at RUDN		
		University and outside RUDN University (if		
		necessary)		
11.	Drafting a report		9	
12.	Preparing for report de		9	
		Total:	540	

6. EQUIPMENT AND TECHNOLOGY SUPPORT REQUIREMENTS

Type of academic activities	Classroom equipment	Specialised educational / laboratory equipment, software, and materials for course study (if necessary)
Lab work	A classroom for laboratory work, individual consultations, current and mid-term assessment; equipped with a set of specialised furniture and machinery.	Computer, screen, projector, Internet access
Seminar A classroom for conducting seminars, group and individual consultations, current and mid-		Computer, screen, projector, Internet access

Type of academic Classroom equipment activities		Specialised educational / laboratory equipment, software, and materials for course study (if necessary)
	term assessment; equipped with a set of specialised furniture and technical means for multimedia presentations.	
Self-studies	A classroom for independent work of students (can be used for seminars and consultations), equipped with a set of specialised furniture and computers with access to the electronic information and educational environment.	Computer, Internet access

7. RESEARCH WORK LOCATION AND TIMELINE

The research work can be carried out at the structural divisions of RUDN University (at Moscow-based organisations, as well as those located outside Moscow.

The research work at an external organisation (outside RUDN University) is legally arranged on the grounds of an appropriate agreement, which specifies the terms, place and conditions for research implementation at the organisation.

The period of the research work, as a rule, corresponds to the period indicated in the training calendar of the higher education programme. However, the period of the research work can be rescheduled upon the agreement with the Department of Educational Policy and the Department for the Organization of Research and Employment of RUDN students.

The training toolkit and guidelines for a student to conduct research, and write a research report*:

1. Safety regulations to conduct the research (awareness briefing).

2. Machinery and principles of operation of technological production equipment used by students during their research; process flow charts, regulations, etc. (if necessary).

3. Guidelines writing an research report.

*The training toolkit and guidelines for the research are placed on the research page in the university telecommunication training and information system under the set procedure.

8. ASSESSMENT TOOLKIT AND GRADING SYSTEM* FOR EVALUATION OF STUDENTS' COMPETENCES LEVEL AS RESEARCH WORK RESULTS

The assessment toolkit and the grading system* to evaluate the level of competences (competences in part) formation as the research results are specified in the Appendix to the research syllabus.

* The assessment toolkit and the grading system are formed on the basis of the requirements of the relevant local normative act of RUDN University (regulations / order).
