**Federal State Autonomous Educational Institution of Higher Education
"Peoples' Friendship University of Russia named after Patrice Lumumba"**

Law Institute

(name of the main educational unit (MEU) – developer of the educational program of higher education)

Internship Program

Research Project

Recommended by the Didactic Council for the Education Field of:

40.04.01 Jurisprudence

field of studies / speciality code and title

The course instruction is implemented within the professional education programme of higher education:

INTERNATIONAL PRIVATE LAW

higher education programme profile/specialisation title

1. PURPOSE OF THE PRACTICE

"Research Work" is part of program 40.04.01 "Jurisprudence" (Civil Law, Family Law, Business Law, and Private International Law) and is taught in semesters 1 and 2 of the first year. The internship is provided by the Department of Civil Law and Procedure and Private International Law.

The purpose of "Research Work" is to develop master's students' universal, general, and professional competencies in accordance with the requirements of the RUDN University General Education Program and the Master's Program, as well as to develop skills for independent research.

1. REQUIREMENTS FOR LEARNING OUTCOMES BASED ON THE RESULTS OF COMPLETING INTERNSHIP

The implementation of "Research Work" is aimed at developing the following competencies (parts of competencies) in students:

Table 2.1. List of competencies developed in students during internship (learning outcomes based on the results of internship)

Cipher	Competence	Indicators of Competency Achievement (within the framework of this practice)
UK-1	Capable of carrying out a critical analysis of problematic situations based on a systems approach and developing an action strategy	UK-1.1 Analyzes a problem situation as a system, identifying its components and the relationships between them; UK-1.2 Identifies gaps in the information needed to solve a problem situation and designs processes to eliminate them; UK-1.3 Critically evaluates the reliability of information sources and works with contradictory information from different sources; UK-1.4 Develops and substantively argues a strategy for solving a problem situation based on a systemic and interdisciplinary approach, presenting an assessment of the prospects and risks of implementing this strategy; UK-1.5 Uses logical and methodological tools to critically evaluate modern philosophical and social concepts in their subject area;

UK-2	Capable of managing a project at all stages of its life cycle	UK-2.1 Formulates a project objective based on the stated problem and a method for solving it through project management; UK-2.2 Develops a project concept within the defined problem: formulates the goal, objectives, justifies the relevance, significance, expected results, and possible areas of their application; UK-2.3 Plans the necessary resources within the framework of the stated objectives, including taking into account their replaceability; UK-2.4 Develops a project implementation plan
------	---	---

Cipher	Competence	Indicators of Competency Achievement (within the framework of this practice)
		<p>using planning tools;</p> <p>UK-2.5 Monitors the progress of project implementation, corrects deviations, makes additional changes to the project implementation plan, and clarifies the areas of responsibility of project participants;</p>
UK-4	<p>Able to apply modern communication technologies in the state language of the Russian Federation and foreign language(s) for academic and professional interaction</p>	<p>UK-4.1 Establishes and develops professional contacts in accordance with the needs of joint activities, including information exchange and the development of a unified interaction strategy;</p> <p>UK-4.2 Compiles, translates, and edits various academic texts (abstracts, essays, reviews, articles, etc.), including those in a foreign language;</p> <p>UK-4.3 Presents the results of academic and professional activities at various public events, including international ones, choosing the most appropriate format;</p> <p>UK-4.4 Defends positions and ideas in a well-reasoned and constructive manner in academic and professional discussions in the official language of the Russian Federation and a foreign language;</p>
UK-6	<p>Able to identify and implement priorities for one's own activities and ways to improve them based on self-assessment</p>	<p>UK-6.1 Assesses one's own resources and their limitations (personal, situational, and time-sensitive), and utilizes them optimally to successfully complete assigned tasks;</p> <p>UK-6.2 Determines priorities for professional growth and ways to improve one's own performance based on self-assessment against selected criteria;</p> <p>UK-6.3 Develops a flexible professional trajectory using continuing education tools, taking into account accumulated professional experience and dynamically changing labor market requirements;</p>

UK-7	Capable of: searching for relevant sources of information and data, perceiving, analyzing, memorizing, and transmitting information using digital tools, as well as using algorithms when working with data obtained from various sources in order to effectively use the information obtained to solve problems; evaluating information, its reliability, and drawing logical conclusions based on incoming data	UK-7.1 Searches for relevant sources of information and data, perceives, analyzes, memorizes, and transmits information using digital tools, as well as algorithms when working with data obtained from various sources, with the goal of effectively using the obtained information to solve problems; UK-7.2 Evaluates information, evaluates its reliability, and draws logical conclusions based on incoming information and data;
------	---	---

Cipher	Competence	Indicators of Competency Achievement (within the framework of this practice)
	information and data	
GPC-1	Able to analyze non-standard situations in law enforcement practice and propose optimal solutions	<p>GPC -1.1 Possesses general and specialized knowledge to identify and resolve non-standard situations (situations in which uniform approaches to the application of legal norms have not been established) in law enforcement practice;</p> <p>GPC -1.2 Analyzes non-standard situations in law enforcement practice, including identifying the legal and other causes and/or conditions for their occurrence;</p> <p>GPC -1.3 Develops optimal solutions for non-standard situations in law enforcement practice, taking into account possible legal consequences, and formalizes these solutions in the form prescribed by law;</p>
GPC -3	Able to competently interpret legal acts, including in situations where there are gaps and conflicts of legal norms	<p>GPC -3.1 Understands the essence and specifics of methods and techniques for interpreting legal acts, as well as ways to eliminate gaps and conflicts in the law;</p> <p>GPC -3.2 Possesses the skills to interpret regulatory legal acts, including in situations where there are gaps and conflicts in legal norms;</p> <p>GPC -3.3 Provides expert explanations on the content and application of legal norms;</p>
GPC -5	Able to independently draft legal documents and develop draft regulatory (individual) legal acts	<p>GPC -5.1 Possesses general and specific legal knowledge necessary for drafting legal documents for various purposes and developing draft regulatory (individual) legal acts;</p> <p>GPC -5.2 Independently drafts legal documents and develops draft regulatory (individual) legal acts;</p> <p>GPC -5.3 Possesses the skills to draft legal documents and develop draft regulatory (individual) legal acts in accordance with their professional profile;</p>
GPC -7	Able to apply information technology and utilize legal databases to solve professional problems, taking into account information security requirements	<p>GPC -7.1: Knowledge of basic information technologies and legal frameworks for solving problems in various areas of legal activity;</p> <p>GPC -7.2: Application of information technologies and use of legal databases to solve professional problems, taking into account information security requirements;</p> <p>GPC -7.3: Possesses information services and data processing skills to solve professional problems, taking into account information security requirements;</p>

PC-2	Capable of competently conducting scientific research in the field of law	PC-2.1 Knows the procedures and rules for the substantive and technical presentation and presentation of various types of results
------	---	---

Cipher	Competence	Indicators of Competency Achievement (within the framework of this practice)
		research work in various branches of law; PC-2.2: Able to correctly conduct and present the results of research in various branches of law; PC-2.3: Possesses the skills to competently conduct research in various branches of law;

1. PLACE OF PRACTICE IN THE STRUCTURE OF THE EDUCATIONAL INSTITUTION OF HIGH EDUCATION

"Research Work" is a mandatory component.

As part of the EP of HE, students also master disciplines and/or other practical training that contribute to the achievement of planned learning outcomes upon completion of the "Research Work" component.

Table 3.1. List of components of the EP of HE that contribute to the achievement of planned learning outcomes upon completion of the practical training.

Cipher	Name of competence	Previous courses/modules, practical training*	Subsequent disciplines/modules, practices*
UK -7	Capable of: searching for relevant sources of information and data, perceiving, analyzing, memorizing, and transmitting information using digital tools, as well as algorithms when working with data obtained from various sources, with the goal of effectively using the information obtained to solve problems; evaluating information and its reliability; and drawing logical conclusions based on incoming information and data.		

UK-4	Able to use modern communication technologies in the official language of the Russian Federation and foreign language(s)

1. SCOPE OF PRACTICE

The total workload of “Research Work” is 27 credit units (972 academic hours)

1. CONTENT OF PRACTICE

Table 5.1. Contents of practice*

Section number	Name of the sections practice	Section content (topics, types of practical activities)		Labor intensity, ac.h.
Chapter 1	Preparatory stage	1.1	Initial safety briefing. Consultation with the supervisor or departmental research supervisor regarding the purpose, objectives, and content of the research project, the main research methods, and documentation. Preparation of an individual assignment with the supervisor.	36
Chapter 2	The main stage	2.1	Familiarization with research topics and selection of a research topic for a final qualifying work	180
Chapter 3	Preparatory stage	3.1	Safety briefing. Consultation with the supervisor or departmental research manager. Adjustment of the individual assignment with the supervisor (if necessary).	18
Chapter 4	The main stage	4.1	Preparing a master's thesis concept. Preparing a preliminary bibliography for the thesis. Preparing a preliminary outline for the thesis. Participating in scientific events at RUDN University and outside of RUDN University (if necessary).	180
Chapter 5	Preparatory stage	5.1	Safety briefing. Consultation with the supervisor or departmental research manager. Adjustment of the individual assignment with the supervisor (if necessary).	18
Chapter 6	The main stage	6.1	Exploring the capabilities of the RUDN University Research and Information Center (National Library) to select sources for final qualifying work. Preparing a bibliography (at least 30 sources) on the research topic for the past 5 years.	90
Chapter 7	Preparatory stage	7.1	Safety briefing. Consultation with the supervisor or departmental research manager. Adjustment of the individual assignment with the supervisor (if necessary).	18

Section number	Name of the sections practice	Section content (topics, types of practical activities)		Labor intensity, ac.h.
			Preparing an abstract for a review of relevant literature on the topic of the final thesis. Preparing the abstract and submitting it to the supervisor. Participating in scientific events at RUDN and outside of RUDN (if necessary).	
Chapter 9	Preparatory stage	9.1	Safety briefing. Consultation with the supervisor or departmental research manager. Adjustment of the individual assignment with the supervisor (if necessary).	18
Chapter 10	The main stage	10.1	Conducting empirical research for the final qualifying work. Preparing an abstract for a review of judicial practice on the research topic. Participation in scientific events at RUDN University and outside of RUDN University (if necessary)	90
Chapter 11	Preparatory stage	11.1	Safety briefing. Consultation with the supervisor or departmental research manager. Adjustment of the individual assignment with the supervisor (if necessary).	36
Chapter 12	The main stage	12.1	Conducting empirical research to prepare a scientific article on any aspect of the thesis topic. Coordinating the title of the scientific article with the supervisor. Preparing a scientific article on the topic of the thesis. Participating in scientific events at RUDN University and outside of RUDN University (if necessary)	90
Preparation of the internship report				9
Preparing for and defending an internship report				9
TOTAL:				972

* - the content of the practice by sections and types of practical training is FULLY reflected in the student's practice report.

1. LOGISTICS AND TECHNICAL SUPPORT FOR CONDUCTING INTERNSHIP

A classroom for independent student work (can be used for seminars and consultations), equipped with a set of specialized furniture and computers with access to the Electronic Information System (EISS), a set of specialized furniture; technical equipment, all-in-one computers, Wi-Fi

1. WAYS TO CONDUCT PRACTICE

Internships can be conducted at RUDN University departments or Moscow-based organizations (stationary), or at locations outside of Moscow (visiting).

Internships conducted at external organizations (outside RUDN University) are carried out on the basis of a corresponding agreement, which specifies the duration, location, and conditions of the internship at the host organization.

The internship period corresponds to the period specified in the academic calendar of the educational program of higher education. Internship dates may be adjusted upon agreement with the Educational Policy Department and the Department of Internships and Graduate Employment Support at RUDN University.
